So help me God.

#### SPEAKER COOMBS IN THE CHAIR.

Speaker Coombs, in taking the chair, spoke as follows:

*Fellow Members of the Thirty-second Session of the California Assembly.*

I am deeply grateful for the confidence implied in this election, and I thank you for the honor conferred. While I appreciate the importance and responsibilities of the office of Speaker, yet I assure you that I enter upon the discharge of its duties for the second time without an ambition personal to myself. I desire to contribute my part toward such common endeavor as may achieve for this Legislature the distinction of being in theory and in fact a coordinate branch of the government of a great State intrusted with the welfare of its citizens. Without assuming authority to direct, permit me to make some suggestions with reference to matters in the line of public duty: An early attention to legislative business may enable you to conclude your labors within the period of sixty days. It is important that the General Appropriation Bill should be passed at least ten days prior to adjournment in order that the tax levy may be based upon actual appropriations which have received Executive approval. Commissions and institutions have been established until government in California has become monstrous in its proportions, a fixed and permanent burden upon the people. Six years ago I had the honor of calling to the attention of the Assembly the various commissions in this State, advocating the abolishment of some and the consolidation of others. A special committee was appointed for that purpose; its object failed. With far more reason I again suggest the plan, and charge you with the responsibility, in this early hour of our deliberations. Every appropriation should be measured by the rule of public necessity; system should characterize the detail of public expenditures; the general welfare should be a charge upon the judgment, honor, and ability of every member. Local desires should yield to considerations of public policy. I say this with reference to the thousand little things common to the wants of individuals, which, if gratified, create extra burdens upon the taxpayer. There never was a time in history when the economical rules of private life could more appropriately be invoked in public affairs. It is a time when individual effort will be approved if it merits approval, or condemned if it deserves condemnation. I shall endeavor, with what assistance my judgment affords, to abide by these suggestions myself, with the hope and confidence that, with your cooperation, they will find their reward in reform.

Again reminding you of your positions, fraught with public cares as they are, I thank you for the honor you have conferred upon me.

ASSEMBLY JOINT RESOLUTION No. 1.

By Mr. Belshaw:

WHEREAS, There is now pending in Congress a bill, known as the Powers bill, which has for its object the refunding of the debts of certain Government-aided railroads; and

WHEREAS, Any scheme of refunding the Pacific Railroads' indebtedness to the Government must result in maintaining an excessive capitalization of these roads, thus requiring high rates of fares and freights to meet the interest payments thereon, to the great burden and disadvantages of the people of the State of California; and

WHEREAS, A sale of these roads on foreclosure to any corporation or private person must result in the loss of most of said Government indebtedness, besides perpetuating the evils of private ownership and management; therefore,

*Resolved by the Assembly of the State of California, the Senate concurring,* That our Senators be instructed and our Representatives be requested to oppose the refunding of said indebtedness in any form, and in lieu thereof to favor legislation providing for the foreclosure and sale of said roads, upon condition that the Government shall bid in said roads and operate them as a national enterprise in the interest and for the benefit of the whole people, and especially of California (who have contributed more to the support of said roads than the people of any other section), the results of which will much sooner reimburse the Government for the advances made by it in aid of these roads than by any other method; and be it further

*Resolved,* That the Governor be requested to immediately transmit, by telegraph, a copy of these resolutions to our congressional delegation at Washington.

ASSEMBLY JOINT RESOLUTION No. 2.

By Mr. Caminetti:

WHEREAS, There is now pending before the Congress of the United States a measure known as the "Powers-Gear Funding Bill," which has for its object the extension of payment of the debts of the Pacific Railroads to the Government of the United States; and,

WHEREAS, Said railroads received from the Government of the United States, through the issuance of bonds and grants of land, aid and assistance which made possible the construction of said roads; and

WHEREAS, Any extension of the payment of said debts will impose a further and oppressive debt, and the obligation of paying the same, on the people of this State, through an unjust and inequitable rate of fares and freights, and afford said railroads an opportunity to further evade their contracts with the Government; be it therefore

*Resolved by the Assembly of the State of California, the Senate concurring,* That we are unalterably opposed to any and all extensions of payment of said debts, and to the so-called "Power-Gear Funding Bill," and any other bill of like import, and that we hereby request our Senators and instruct our Representatives in Congress to use all honorable means to defeat said funding bill, or any similar measure; and be it further

*Resolved,* That we favor the immediate collection, on maturity, of said debts from said railroads, and in the event said debts cannot be collected then we urge and favor the enforcement of existing laws of the United States concerning the said Pacific Railroads; and be it further

*Resolved,* That a committee of nine members, to be selected as follows: three members of the Senate, by the Senate, three members of the Assembly, by the Assembly, and three citizens at large, by the Governor, be appointed to immediately proceed to Washington, D. C., and request a hearing in behalf of the State of California before the respective committees of Congress having the subject in charge, present these resolutions, and otherwise to aid, by all honorable means, the effort to defeat said bill and any similar measure; and be it further

ASSEMBLY JOINT RESOLUTION No. 3.

By Mr. Sanford:

Assembly Joint Resolution No. 3, relative to the free coinage of silver.

WHEREAS, We recognize the fact that, by the demonetization of silver, and by refusal to give it equal standing in the coinage system of the United States, the material interest of the nation is dangerously impaired; and

WHEREAS, It is recognized to be a fact that the opposition to silver coinage emanates from speculative syndicates and moneyed classes, who seek to embarrass the people of the nation for the advancement of their own selfish ends; and

WHEREAS, We entertain the firm belief that the full measure of national prosperity will never be restored until the coinage of silver is resumed in accordance with the true interest and spirit of the Constitution of the United States, and having unbounded faith in the power and ability of this nation to restore and maintain silver in its proper position alongside of gold; and

WHEREAS, We believe that the issue of the United States bonds for the purpose of maintaining a single gold standard, or any standard that does not contemplate the free and unlimited coinage of silver, is a practice fraught with the greatest danger to the stability of our institutions and the maintenance of national credit; therefore, be it

*Resolved*, That our Senators in Congress be instructed, and our Representatives be requested, to earnestly and urgently advocate the immediate enactment of such laws as may be necessary to provide for the immediate resumption of the free and unlimited coinage of silver in the ratio of sixteen to one; and be it further

*Resolved*, That our Senators be instructed, and our Representatives be requested, to actively advocate the enactment of such laws as may be necessary to prevent the issue of United States bonds for the sole purpose of maintaining a single gold standard of money; and be it further

*Resolved*, That the Governor be requested to immediately transmit a copy of these resolutions to each of our Senators and Representatives in Congress.

ASSEMBLY JOINT RESOLUTION No. 4.

By Mr. Canavan:

WHEREAS, A universally recognized republican form of Government has been recently established over the Hawaiian Islands by the independent action of the inhabitants thereof; and

WHEREAS, It appears that said Government is founded upon such correct and advanced principles of humanity and wisdom as to insure its permanent stability, and it also appearing that a majority of the citizens of this Republic, many of whom control the administration of its affairs, are of the Caucasian race, being mainly of American origin; and

WHEREAS, It has become obvious, by reason of the numerous expressions of opinion of both citizens of Hawaii and those of the United States, that there exists a prevailing mutual sentiment among the people just mentioned in favor of the alliance of the Hawaiian Republic with the United States, either by means of the annexation of Hawaii to our country or by such other international agreement as will most properly serve to that end; and

WHEREAS, Owing to the geographical location of the Hawaiian Islands with relation to the United States; also, their extensive fertile territory and abundant natural resources, it certainly becomes an important question, in the light of expedience and necessity, in furtherance of the improvement of the military defenses of our western coast, in addition to largely promoting our commercial interests, that decisive measures should be speedily adopted with a view toward effecting the substantial union of the Hawaiian Republic with the United States, and the establishment of a moral protectorate over that Republic by our country, in accordance with those doctrines of international law as enunciated by our late President, James Monroe, of illustrious memory, for the express purpose of excluding the possibility of the absorption of the Hawaiian Government by any foreign power,

And, in view of the foregoing considerations, wherefore, be it

*Resolved by the Assembly, and the Senate concurring, That our Representatives to Congress be and they are hereby requested and empowered to exercise special efforts in procuring such national action toward the accomplishment of the objects herein set forth as will be consistent with any other measures relative thereto that may best meet the approval of the constituted authorities of both countries.*

The President pro tem. of the Senate then announced the receipt of a telegraphic communication from Hon. George C. Perkins.

The Secretary of the Senate read as follows:

WASHINGTON, D. C., January 13, 1897.

To HON. W. T. JETER, *Lieutenant-Governor, and President of the Joint Legislative Assembly.*

Permit me, through you, to express to the Joint Legislative Assembly my most sincere appreciation of the honor conferred upon me by my reelection as one of California's Senators in Congress. This evidence of your confidence is intensified by the fact that your choice was made only eight days after the organization of the Legislature and on the first day that by law you were permitted to vote on this question. The honor conferred is made more distinguished from the further fact that it has been bestowed upon me while separated from my State by three thousand miles, and removed from all possibility of exerting personal influence upon your action. All this increases within me the feeling of responsibility which the high office brings, and strengthens my ambition to work, if possible, with more zeal for the interests of the people who have so often honored me with their confidence. I shall endeavor to act in the future as in the past, as far as in my power lies, in accordance with the principles enunciated by the Republican national platforms, and shall ever bear in mind the truth that he who best serves his State best serves his political party.

GEORGE C. PERKINS.

XV.—MODE OF INTRODUCING AND PASSING A BILL IN EITHER THE SENATE OR ASSEMBLY.

A bill shall be presented in the following manner:

When a Senator or member of the Assembly desires to introduce a bill for consideration, he shall rise in his place and address the President of the Senate (if a Senator) or the Speaker of the Assembly (if a member of the Assembly), and if recognized by the presiding officer shall state his desire. The bill shall then be sent to the Secretary of

the Senate (if a Senate bill) or Clerk of the Assembly (if an Assembly bill), who shall number and read same, which shall be the "first reading of the bill." The President of the Senate or Speaker of the Assembly shall then assign the bill to its proper committee. The Secretary of the Senate or Clerk of the Assembly shall, after making the proper indorsements thereon, and within a reasonable time thereafter, deliver the bill to the chairman of the committee to which such bill has been assigned.

XVII.—SECOND READING OF BILLS.

Upon the second reading of a bill the question shall be: "Shall the bill be read a second time?" and if so ordered (and it be a Senate bill) then the Secretary of the Senate or (if an Assembly bill) the Clerk of the Assembly shall read the bill by sections, and as each section is read, the President of the Senate or Speaker of the Assembly shall state the question: "Are there any amendments to this section?" at which time any Senator or member having an amendment or amendments to offer, shall, upon recognition by the presiding officer, send to the Secretary's or Clerk's desk, such amendment or amendments in writing. After the reading of such amendment or amendments, the question shall be upon the adoption of the same. Each amendment shall be printed in full in the Journal of the Senate or Assembly (as the case may be), and mention made whether the amendment was "adopted" or "lost."

When the Secretary of the Senate or Clerk of the Assembly shall have finished reading the bill by sections, the presiding officer shall state the question: "Are there any further amendments to the bill?" When all amendments have been submitted the question shall be: "Shall the bill be ordered engrossed and to a third reading?"

When a bill shall have been reported as correctly engrossed, it shall be placed on the General File for third reading, in the order received from the Engrossing Clerk.

XVIII.—THIRD READING OF BILLS.

Upon the third reading of a bill the question shall be: "Shall the bill be read a third time?" and if so ordered (and if it be a Senate bill) the Secretary of the Senate or (if an Assembly bill) the Clerk of the Assembly shall read the bill at length, when the question shall be upon the final passage of the bill. If the bill shall have received the requisite number of votes, it shall be declared "passed." The title shall then be read and approved. ##### ON ATTACHÉS AND EMPLOYÉS.

ASSEMBLY CHAMBER, SACRAMENTO, January 18, 1897.

MR. SPEAKER: Your Committee on Attachés and Employés, to whom was referred the resolution offered by Mr. Dryden.

WHEREAS, The members of the present Assembly were elected under pledges of economy and retrenchment, demanded by the people in their respective political conventions, which demands were based upon the fact of unnecessary expenditures in past sessions; and

WHEREAS, It is publicly charged that in the temporary organization of the present Assembly some abuses of legal privileges have been committed in the selection of officials and attachés; and

WHEREAS, It is publicly charged that the temporary organization of this session of the Assembly cost the State at least \$2,000 more than did that of the last session; therefore, be it

Resolved, That a committee be appointed, consisting of one member from each of the three political organizations here represented, whose duty it shall be to inquire into and report:

First—Whether any unnecessary appointments have been made and unnecessary expenses incurred in such temporary organization, and if so, to what extent;

Second—Whether such unnecessary appointments and expenses are contrary to law,

or due to a strained construction of statutory privilege. And if the latter, to suggest such amendments and restrictions as will prevent a recurrence of like abuses in future.

Have had the same under consideration, and respectfully report the same back, and recommend the adoption of the report herewith.

VOSBURG, Chairman.

MAJORITY REPORT OF COMMITTEE ON ATTACHÉS AND EMPLOYÉS.

Your Committee on Attachés, to whom was referred the resolution introduced by Mr. Dryden, to investigate the amount of expenditures incurred in the temporary organization of the Assembly, beg leave to report as follows:

First—We find, by reference to Section 246 of the Political Code, that the following persons constitute the statutory officers of the Assembly, in addition to the Speaker and the Speaker pro tem.: "One Chief Clerk, one Sergeant-at-Arms, two Assistant Sergeants-at-Arms, one Minute Clerk, one Journal Clerk, one Enrolling Clerk, one Engrossing Clerk, four Porters, four Pages, one Postmaster, and one Assistant Postmaster, and such other officers and employés as may be deemed necessary by the Assembly for the transaction of the business of the Assembly."

Second—We further find that the above section was approved January 29, 1891, and was intended to restrict the abuses now complained of, but which has signally failed in doing so, as is evidenced by the largely increased list of appointees made during each session since that time.

Third—We further find that if a construction of this law can be so stretched as to confer upon the Chief Clerk, as he claims it does, the authority to make as many appointments in effecting a temporary organization as it was intended should be a sufficient number to properly conduct the business of the House when fully organized for business, then your committee is willing to concede that this may have been done, and done with some shadow of authority; but when almost one hundred persons in addition to those above enumerated are placed upon the payroll, and mileage and per diem allowed most of them for seven days, without any authority of law, but in conformity with a bad custom of paying political debts, we find the same, while apparently free from criminal intent, to be a gross abuse of power, and should receive the censure and condemnation of this House; that, notwithstanding the resolution authorizing the payment of these amounts was submitted to this Assembly and passed without a dissenting vote, we find that the full effect of said resolution was not generally understood by most of the members in the noise and confusion incident to the first days of the session.

Fourth—In the limited time allotted us in which to report, as well as a question existing in the minds of your committee as to its power to compel the attendance of witnesses without express authority so to do, we have been unable to ascertain what amounts of money, if any, have been drawn by persons unauthorized so to do, except as above stated. From the Chief Clerk we ascertained that the several amounts approved of by the Assembly for mileage and per diem of officers in effecting a temporary organization to be \$4,230 30. From this we deduct amount allowed by law as pay of statutory officers, \$620; and amount of warrants allowed, but on which payment has been stopped, \$314; total, \$934. We find total amount expended without authority, \$3,296 30.

Fifth—In conclusion, we recommend that, in order to prevent a recurrence of such abuses, immediate legislation be enacted in the passage of a bill clearly and positively defining the duties of statutory officers of this Assembly, and limiting the number of employés and the compensation they shall receive, as suggested by the Senate Committee on Legislative Business appointed at the thirty-first session.

MINORITY REPORT OF COMMITTEE ON ATTACHÉS AND EMPLOYÉS.

SACRAMENTO, January 18, 1897.

Your Committee on Attachés and Employés was instructed, by order of the Assembly, to report on the resolution introduced by Mr. Dryden.

We submit the following report:

We find that Chief Clerk S. J. Duckworth did appoint ninety-nine attachés not included in the list of statutory officers, which caused an unnecessary expenditure of more than \$3,000, which was a gross violation of his privilege as temporary presiding officer of the Assembly.

We find that we, as a Committee on Attachés and Employés, have not power to investigate this matter to the extent demanded by the people of this State.

Therefore, we recommend that an investigating committee of three be appointed by the Speaker, with power to administer oaths and take evidence in all matters relative to attachés, and the acts of all attachés of this Assembly; and that the sum of \$250 be allowed said committee, or such part thereof as is necessary to pay the actual expense of said committee; and, further, that the Assembly provide said committee with proper clerks as said committee may need or demand.

JOHN W. KEEGAN.

Mr. Dibble moved that the majority report, and also the substitute of the minority, be published in the Journal, and be made a special order immediately after reading of the Journal.

So ordered.

#### ASSEMBLY JOINT RESOLUTION No. 15.

WHEREAS, There has been for the past decade a great and alarming increase of vast hordes of ignorant, criminal, and pauperized labor classes from foreign shores to the United States, thereby over-supplying our own labor markets, reducing the earnings of American wage-earners, and thus causing the throwing out of employment of millions of our own citizens, and

WHEREAS, Such unrestricted and indiscriminate immigration is degrading and pauperizing our own citizens, and endangering the safety of American institutions; and

WHEREAS, We believe that the law of supply and demand rules all markets, and that the true way to protect American workmen is, not to raise the price on the necessary articles of consumption used by the masses of the people, but to shut off the supply of competitive foreign labor; and

WHEREAS, The experience of the past has shown that our present laws are inadequate to restrain this great influx of immigration; therefore, be it

*Resolved by the Assembly of the State of California, the Senate concurring,* That we instruct our Senators and request our Representatives in Congress from this State to advocate such measures of national legislation as will effectually put a stop to undesirable immigration, even to the extent, if found necessary, of the absolute prohibition of such immigration; and be it

WHEREAS, While not defending the abuse of the power exercised by the Chief Clerk, it is evident under the law that his action in naming the persons who acted during the organization of the House did not, and could not, attach any liability against the State, unless such action was indorsed by the Committees on Mileage and Attachés, and confirmed by a majority vote of the House;

WHEREAS, It appears from the records that, while there were only six working days in the first Legislative week of the Assembly—such was the number of days for which the members received pay—the Committees on Mileage and Attachés reported, and the House allowed, seven days' pay to such attachés, when two was the utmost that should have been allowed, and this waste of money was not entirely caused by the Chief Clerk of the House;

WHEREAS, It is currently rumored that many of such attachés were not in attendance and their pay was collected by agents, and it is also alleged that some attachés on the temporary list are now on the permanent list, thus drawing double pay; therefore, it is

*Resolved*, That a special committee of five, to be named by the Speaker, be appointed to investigate the whole question of the meeting and organization of this Assembly, and to what extent, and by whom, Article II of Chapter II of Part III of the Political Code, relating to the meeting and organization of the Assembly, has been violated.

#### REPORTS OF STANDING COMMITTEES—(OUT OF ORDER).

##### ON ATTACHÉS AND EMPLOYÉS—MAJORITY REPORT.

ASSEMBLY CHAMBER, SACRAMENTO, January 22, 1897.

MR. SPEAKER: Your Committee on Attachés, to which was referred resolution calling for an investigation into the conduct of S. J. Duckworth, Chief Clerk of this Assembly, with reference to the temporary organization of the House, beg leave to report as follows:

In addition to our former report, we beg leave to submit the following:

A committee was appointed by the Speaker on Mileage, to which was referred the temporary roll pertaining to the temporary organization of the Assembly; said committee made its report on the ——— day of January, whereupon the Speaker of this House, in order to give the House an opportunity to investigate the same, referred the report back to the committee; that the Speaker of the House asked the Controller of State to investigate said report; that pending said investigation by the Controller, the report was again presented to the Assembly, whereupon the Speaker, addressing the Chief Clerk, said:

"Mr. Clerk, the members are not paying attention to your reading, nor could they hear you if they did."

The Speaker then addressed the Assembly, as follows:

"Gentlemen of the Assembly: I have not been able to investigate the report satisfactorily, but I understand that persons mentioned in the report are allowed mileage who are not statutory officers, and think it should be investigated before it is finally adopted." Whereupon a member asked:

"What amount was in excess of the amount allowed for statutory officers?"

The answer to this—it was given out from the Clerk's desk—"that the amount was but \$100 40."

These proceedings were by the Speaker called to the attention of every member of the House then present, and every such member of the House had an opportunity to investigate the matter then and there. During the consideration of the report, Mr. Treacy, representing the minority of the Committee on Mileage, arose in his place and strongly advocated the adoption of the committee's report, saying, among other things, "that it had been thoroughly considered by the committee; that it was in all particulars correct, and should be adopted without delay."

The Speaker again, before putting the main question, said: "Gentlemen, I do not desire to impugn the intentions of the committee, and do not know whether the report is correct or not, as I have not been able to examine it, but I do not desire it passed until the House has had time to consider it."

The House then, acting upon the faith it had in the committee, and the statement made upon the floor from members of the committee and information from the Clerk's desk, adopted the report of the committee.

Your committee find that the House itself was derelict in adopting the report of the committee without further considering it, after the matter had so plainly been placed before it by the Speaker; but that this dereliction falls upon all the members of the

House, of whatever political party, and that the House was misled and grossly deceived in the matter, and in all things pertaining to said report.

The committee offers the following resolution:

WHEREAS, In the appointment of said temporary officers sufficient is known to substantiate the charge against the Clerk of the House of gross abuse of power on his part; therefore, be it

*Resolved*, That the Committee on Commissions and Retrenchment be required to investigate said charges, and for such purpose is hereby invested with all powers to subpoena and compel the attendance of witnesses and to administer oaths.

Have had the same under consideration, and respectfully report the same back, and recommend that it be adopted.

VOSBURG, Chairman.

ON ATTACHÉS AND EMPLOYÉS—MINORITY REPORT.

ASSEMBLY CHAMBER, SACRAMENTO, January 22, 1897.

MR. SPEAKER: The following report is submitted by the minority of the Committee on Attachés:

We concur in all that portion of the report of the majority which recommends that the whole subject-matter be turned over to the Committee on Retrenchment, and further demand that said committee fully investigate said matter, and all unlawful acts of the Assembly attachés.

LANDSBOROUGH.  
KEEGAN.

SUBSTITUTE.

Mr. Leavitt moved the following as a substitute for both majority and minority reports:

WHEREAS, Charges of a serious nature have been made relative to frauds said to have been practiced during the temporary organization of this Assembly; and

WHEREAS, The Chief Clerk of the Assembly, S. J. Duckworth, is charged with complicity therein, and he denies said charges; therefore, be it

*Resolved*, That a special committee of seven be named by this Assembly to investigate all said charges, relative to the organization of this House, and to report its findings to this House.

Said committee shall have full power to subpoena witnesses, administer oaths, take testimony, and such other power as shall be necessary for the full performance of their duties.

Mr. North, of Alameda, moved that the third paragraph be amended as follows:

*Resolved*, That a special committee of seven be named by the Speaker of this Assembly to investigate all said charges relative to the temporary organization of this House, and to report its findings to this House.

Mr. Leavitt accepted the amendment offered by Mr. North.

The motion of Mr. Leavitt to substitute his resolution was adopted.

The question then recurring upon the substitute offered by Mr. Leavitt.

Adopted.

REPORT OF STANDING COMMITTEE—(OUT OF ORDER).

ON RULES AND REGULATIONS.

ASSEMBLY CHAMBER, SACRAMENTO, January 22, 1897.

MR. SPEAKER: Your Committee on Rules and Regulations beg leave to report the following substitute for Rule XIII, and recommend its adoption:

XIII.—ORDER OF MAKING FILE.

Upon the introduction of bills they shall be read and referred to a standing committee of the House. When reported back they shall be placed upon the General File, to be kept by the Clerk, as follows: All bills, when reported to the House by such committee, shall be placed at the foot of the second-reading file, in the order in which the reports are made, and after the second reading they shall be placed at the foot of the third-reading file, in the order of reading, and precedence shall be given in the consideration of bills in the following order. The Clerk shall, for the above purposes, place upon the file, under distinct heads, third-reading bills and second-reading bills in the order above named. VI.—INTRODUCTION AND READING OF BILLS.

Any member desiring to introduce a bill shall rise in his place and address the Speaker, and upon being recognized, shall present the same. It shall then be numbered and read the first time at the Clerk's desk, referred to a standing committee, and be printed, and a copy placed upon the desk of each member. Every bill shall be read at length on three several days previous to its passage, unless, in case of urgency, two thirds of the House shall, by vote of ayes and noes, dispense with this provision. The Speaker shall give notice at each reading whether it be the second or third, and no bill shall be read at either reading until the House has so determined by a vote. All bills to appropriate money for contingent purposes shall be presented by the Committee on Ways and Means. The Chairman or Clerk of each committee of the Assembly shall notify the author of any bill or proceeding pending before such committee of the hour and place of hearing or acting upon such bill or proceeding.

Also: Your Committee on Rules and Regulations, to whom was referred the following resolution, introduced by Mr. Guy:

*Resolved*, That the Superintendent of State Printing be and he is hereby instructed to print daily, in addition to the number heretofore ordered, two hundred copies each of all bills, joint and concurrent resolutions, constitutional amendments, Journal, Files, and History.

Have had the same under consideration, and respectfully report the same back, and recommend that it be adopted.

CHYNOWETH, Chairman

Mr. Dibble moved that the reading of the report of the Committee on Rules and Regulations be dispensed with, and be printed in the Journal.  
So ordered.

*Resolved by the Assembly, the Senate concurring,* That the Legislature of the State of California, at its regular session, commencing on fourth day of January, 1897, two thirds of all the members elected to each house concurring, hereby recommend that the electors of the State vote at the next general election upon the proposition to call a convention to revise the State Constitution, such proposition to read as follows:

D. 1897, do hereby recommend to the electors of the State to vote at the next general election for or against a convention for the purpose of revising the Constitution of the State; such vote to be taken for the reason that two thirds of the members of each branch of the Legislature at said regular thirty-second session deem it necessary to revise such Constitution. All vacancies in the offices of delegates to be filled in the same manner as vacancies in the office of Assemblyman, and all contests over the election of delegates to be determined by the convention. F. J. BRANDON, Secretary.

Assembly Bill No. 10 ordered to enrollment.

#### SENATE JOINT RESOLUTION No. 11.

Relative to requesting Congress to impose a tariff on foreign fresh table grapes competing with the American product.

*Resolved by the Senate, the Assembly concurring:* WHEREAS, In the memorial to Congress adopted by the fruit-growers of California, in convention assembled at Sacramento, on the 2d day of December, 1896, a request that a tariff be imposed upon imports of fresh table grapes was overlooked and not intentionally omitted from the schedule adopted; and

WHEREAS, There are annually imported into the United States many millions of pounds of grapes that come in competition with those grown in this country; and

WHEREAS, The tariff law of 1890 (the McKinley law), whereby a specific duty of 2 cents per pound was imposed upon fresh table grapes, was amended in 1894 by making it an ad valorem tariff of 20%, equal to about 81 cents per 100 pounds; and

WHEREAS, It must be remembered in fixing the schedule for foreign grapes competing with ours that our principal markets lie about 3,000 miles away from our vineyards, and that the cost to California growers for transportation alone to New York and other Eastern markets is about 2½ cents per pound while, generally speaking, the cost of transportation on imported fruits is about 30 cents per 100 pounds, which, together with the import duty of 81 cents per 100 pounds, makes the total cost to the importer \$1 11 per 100 pounds, while the California growers have to pay for transportation alone about \$2 50 per 100 pounds, or about \$1 40 more per 100 pounds than the importer, and as we believe the California producer should have at least 1 cent per pound clearly protective over the foreign producer, therefore, be it

*Resolved,* That the Congress of the United States be and is hereby requested to add to the 20% ad valorem tariff now imposed a specific tariff of 2½ cents per pound upon all fresh table-grape importations;

*Resolved,* That the same be printed and duly attested, and a copy forwarded to each Senator and Representative in Congress now serving, and to each Senator and Representative of the Congress to assemble after the 4th of March, 1897, and that the Senators and Representatives from California at the time serving as such be and they are hereby specially requested to give the subject of this resolution their most earnest attention and support, and to press the same upon the attention of the Ways and Means Committee of the House of Representatives and the Committee on Finance of the Senate.

Adopted.

SPECIAL ORDERS.

SENATE JOINT RESOLUTION No. 2.

Relative to the fruit industry.

*Resolved by the Senate of the State of California, the Assembly concurring, That—*

WHEREAS, The fruit-growers of California, in convention assembled, December second, eighteen hundred and ninety-six, at Sacramento, California, adopted a memorial to the Congress of the United States respecting the duties upon foreign fruits, expressive of the views of the convention and the fruit-growers of California; therefore, be it

*Resolved*, That the Legislature of California fully indorse the objects set forth in said memorial and approve the same, and hereby petition Congress to enact a tariff on fruits and fruit products as follows:

(1) *Olives*, green or prepared, which were not upon the dutiable list in the Act of eighteen hundred and ninety, and which by the Act of eighteen hundred and ninety-four were placed on the dutiable list with twenty per cent ad valorem duty, should be twenty cents per gallon. The California plantings of this precious tree are increasing and should be encouraged.

(2) *Olive Oil* for salad was given a specific duty of thirty-five cents per gallon, both by the Act of eighteen hundred and ninety and by the Act of eighteen hundred and ninety-four. The consumer gets this oil in bottles, about five of which make a gallon; it sells at seventy-five cents to one dollar per bottle. The invoice price at which it is valued for duty is about one dollar and eight cents per gallon, or a duty of seven cents per bottle. This duty is too small; we therefore ask that it be not less than one dollar per gallon, and the same on all oils of which olive oil forms a part. In eighteen hundred and ninety-five we exported twenty-one million one hundred and eighty-seven thousand

seven hundred and twenty-eight gallons of cotton-seed oil. Much of this returned to America, after further treatment, labeled pure olive oil, greatly to the detriment of the pure oil made from the fruit grown in California. At present we must compete not only with pure olive oil, but also with cotton-seed oil and other substitutes.

(3) *Raisins, Zante Currants, Sultanas*, and all other dried products of the grape should be given two and one-half cents per pound, the duty of eighteen hundred and ninety. This industry has grown so rapidly that raisins have cheapened in the market far beyond expectations and to a point affording but little profit to the grower. The present duty of one and one-half cents per pound about covers cost of transportation to New York and Chicago. The foreign article comes in with very small freight charge. Our product should have at least one cent per pound clearly protective, and even this will not put our grower upon an equal footing with the foreign producer. The cost of transportation on imported fruits is about thirty cents per hundred pounds, while we pay one dollar and fifty cents per hundred pounds.

(4) *Almonds*. The price realized during the past two years has not been remunerative. It is one of the most delicate fruits, and more likely to suffer from frost than even the orange; it blooms early and is quite tender in the bloom, and for some time after setting the fruit. There are many things to discourage its planting, and yet it is very desirable that we should continue its production, as, since we began its culture, we have produced many very desirable new varieties and have cheapened the price so that the consumer in recent years has indulged this luxury to a much greater extent than formerly. Notwithstanding we have grown the almond quite extensively, the importations have increased. The rate of duty does not seem to have affected the imports. In eighteen hundred and ninety-two, when the duty was five cents, our imports were seven million six hundred and twenty-nine thousand three hundred and ninety-two pounds. In eighteen hundred and ninety-five, there were nearly eight million pounds. By the Act of eighteen hundred and eighty-three, and the Act of eighteen hundred and ninety, and the Mills bill, the rate was five cents. The Wilson bill cut it down to three cents, which is too low. There was less revenue to the Government in eighteen hundred and ninety-five at three cents than formerly at five cents, and there was less protection. We ask that the duty be made six cents per pound on unshelled and ten cents on shelled almonds.

(5) *Walnuts*. Walnuts are largely produced in the State. The acreage planted is greater than that of the almond, and it is a more profitable tree where soil and climate are favorable. In the Acts of eighteen hundred and eighty-three and eighteen hundred and ninety and the Mills bill the same rates were imposed (except that by the Act of eighteen hundred and ninety the rate was properly increased on shelled walnuts from three to six cents per pound). The Wilson Act of eighteen hundred and ninety-four cut down the rate to two cents. It should be restored to the old rate of three cents on unshelled and six cents on shelled. It takes much longer to bring a walnut tree to bearing than the almond, and the area adapted to its production is much less.

(6) *The Prune Industry*. The duty by the Act of eighteen hundred and eighty-three was one cent per pound, and the same by the Mills bill. The Act of eighteen hundred and ninety increased it to two cents, but the Act of eighteen hundred and ninety-four reduced it to one and one half cents. The present duty does not more than cover the cost of transportation to our markets, so that we practically enter with no advantage over the foreign producer. The duty should be two and one half cents per pound on prunes and plums. Since California has developed this industry, the prune has become a common article of food, greatly prized by the masses, and has been so cheapened in price that all classes may use it. So long as the foreign trade had the market the prune was a luxury. In eighteen hundred and ninety-three foreign prunes were laid down in New York City for four and four and one half cents per pound, duty paid of two cents, and we imported that year over twenty-six million pounds. During the past two seasons the foreign crop has been short, but still the price has not advanced materially. The fact that the foreign producer can sell for two and two and one half cents per pound, and pay commissions and freight charges out of this, will show how sharp is to be the competition when a good crop is produced abroad. Nothing short of two and one half cents per pound will afford any protection. If the California prune-grower is forced to yield the trade to her foreign competitor and go out of the business of growing prunes, the foreign producer will inevitably raise his price, and the consumer will lose much more than by paying the small additional duty asked if he prefers the foreign article.

(7) *The Fig Industry*. In eighteen hundred and eighty-three the duty was two cents per pound on figs, and two and one half cents by the Act of eighteen hundred and ninety. The Mills bill put them on the free list, and the Wilson Act placed the duty at one and one half cents. Nothing could be more illogical than to put figs upon the free list, even under tariff for revenue only. Figs are not an article of necessity, and the consumption has not much increased in ten years. This fruit is really most wholesome, and should be more widely consumed, and will be when our plantings are in full bearing. We recommend a duty of three cents per pound.

(8) *Comfits, Sweetmeats, Preserved Fruits, etc.* Under the general heading above, all parties, and all laws, seem to have regarded the more costly preparations of fruit, such as glacé, candied and preserved varieties, as essential luxuries, and as such should pay a revenue. The industry in California is developing and will find a wide and profitable field. The duty was thirty-five per cent ad valorem under former laws, and is thirty per cent by the Act of eighteen hundred and ninety-four. In the nature of these

products a specific duty seems not practicable, but a duty of forty per cent is none too large, and we recommend that rate.

(9) *Citrus Fruits—Oranges, Lemons, and Limes.* The citrus-fruit industry has, perhaps, contributed more to bring to the notice of the world the wonderful range of California's fruit products than all others combined. In point of acreage planted, rapidity of its development, capital invested, and relation to the Eastern fruit markets, it stands at the head of all our varieties. We have competitors, not only in the eastern, but also in the southern portion of the western hemisphere, and from the islands of the sea. The orange and lemon have passed beyond the class of luxuries and have become a necessity to the American people, and are demanded and consumed in large quantities. The competition with our lemons is very close and very unfair, because an inferior lemon is put upon the market at low prices, and seriously affects the price of good lemons. Mexico is preparing to enter into strong competition for our orange trade, and will this season send in over eight hundred carloads. Our present orange and lemon duty is not as protective as it should be, and is not as high as it should be to yield revenue. The rate under the Acts of eighteen hundred and eighty-three and eighteen hundred and ninety was thirteen cents per cubic foot on box of one and one quarter cubic feet, and twenty-five cents per box of two and one half feet, and fifty-five cents on box of five feet, and twenty per cent ad valorem on each additional cubic foot. Oranges run from one hundred and twenty-eight to two hundred and sixty to a box of one and three quarters cubic feet. The average number is about one hundred and sixty to a box, on which the McKinley bill placed a duty of about twelve cents per hundred, and the Wilson bill eight cents per hundred. We claim that this duty is so inadequate, as offering protection, that our country is flooded with grossly inferior fruit, and the business of producing good oranges discouraged. The same may be said of the duty of one dollar and fifty cents laid on one thousand oranges in bulk. It is not protective, nor is it sufficient for revenue. We see no reason for these several classifications. The duty should be laid at a uniform rate per cubic foot, regardless of the size of the package, and should not be less than twenty cents per cubic foot, and when in bulk (which are always high-grade and large oranges), should bear not less than two dollars and fifty cents per thousand. We further recommend a specific duty of ten cents per pound on citric acid, and fifty cents per pound on essential oils of oranges and lemons.

WHEREAS, The orchards of California are proving to the country what her gold mines were in the fifties, with the advantage that they have come to stay, and are practically unlimited in possibilities; and

WHEREAS, Nature has decreed California to be the orchard of America, if not of the globe. Here are produced the fruits of every zone. The whole country has the same interest in our success, or should have, that it has in the success and prosperity of other specially favored regions of our marvelous country—as in the South in her cotton and sugar and rice and tobacco, the great West in her corn and wheat, the Middle States in their iron and coal, the East in her manufactures. That we can produce in California every fruit known to the Mediterranean basin, and the harder fruits of all other climes, should arouse the pride of all Americans, and challenge their friendly aid, and

WHEREAS, The more nearly the United States are enabled to produce all articles of human consumption, the more nearly we shall approach the ideal country for human habitation. We desire to furnish to the people of the United States fruits in abundance and at reasonable prices, such fruits especially as cannot be elsewhere grown in the United States. We ask only such legislation as will enable us to do this; therefore, be it

*Resolved*, That these resolutions be printed and duly attested, and a copy be forwarded to each member of the Ways and Means Committee of the House of Representatives, and to each present Senator and Representative in Congress, and to each Senator and Representative of the forthcoming Congress of America.

#### ASSEMBLY JOINT RESOLUTION No. 4.

By Mr. Canavan:

WHEREAS, A universally recognized republican form of government has been recently established over the Hawaiian Islands by the independent action of the inhabitants thereof; and

WHEREAS, It appears that said Government is founded upon such correct and advanced principles of humanity and wisdom as to insure its permanent stability, and it also appearing that a majority of the citizens of this Republic, many of whom control the administration of its affairs, are of the Caucasian race, being mainly of American origin; and

WHEREAS, It has become obvious, by reason of the numerous expressions of opinion of both citizens of Hawaii and those of the United States, that there exists a prevailing mutual sentiment among the people just mentioned in favor of the alliance of the Hawaiian Republic with the United States, either by means of the annexation of Hawaii to our country or by such other international agreement as will most properly serve to that end; and

WHEREAS, Owing to the geographical location of the Hawaiian Islands with relation to the United States; also, their extensive fertile territory and abundant natural resources, it certainly becomes an important question, in the light of expedience and

necessity, in furtherance of the improvement of the military defenses of our western coast, in addition to largely promoting our commercial interests, that decisive measures should be speedily adopted with a view toward effecting the substantial union of the Hawaiian Republic with the United States, and the establishment of a moral protectorate over that Republic by our country, in accordance with those doctrines of international law as enunciated by our late President, James Monroe, of illustrious memory, for the express purpose of excluding the possibility of the absorption of the Hawaiian Government by any foreign power;

And in view of the foregoing considerations: wherefore, be it

*Resolved by the Assembly, and the Senate concurring,* That our Representatives to Congress be and they are hereby requested and empowered to exercise special efforts in procuring such national action toward the accomplishment of the objects herein set forth as will be consistent with any other measures relative thereto, that may best meet the approval of the constituted authorities of both countries.

On motion of Mr. Canavan, the rules were suspended and the resolution adopted.

SPECIAL ORDER.

ASSEMBLY JOINT RESOLUTION No. 17.

Substitute for Assembly Joint Resolution No. 13, relative to the struggle of the Cuban people for free and independent government.

*Resolved by the Assembly and Senate of the State of California*, That, while we extend our warmest sympathy to the Cubans in their heroic struggle for independence, we deem it inopportune at this time to offer advice to the Federal Government as to its treatment of a grave international question, but have full confidence that the National Administration will deal with it in a manner which will not only secure the desired end, but reflect honor and credit on the United States.

Mr. Burnett offered the following substitute for Assembly Joint Resolution No 17:

*Resolved*, That we extend our warmest sympathy to the Cubans in their heroic struggle for independence;

*Resolved*, That the time has long passed when this Government should have acknowledged the belligerent rights of Cuba;

*Resolved*, That the methods pursued by Spain in her efforts to subjugate Cuba—including wholesale murder of men, women, and children, and unchecked rapine—call for immediate intervention on the part of this Government.

*Resolved*, That the attitude of this Government toward Cuba, in view of the methods openly pursued by Spain, is reprehensible, indefensible, and a disgrace to a great nation like the United States;

*Resolved*, That we instruct our Senators and earnestly request our Representatives in Congress to work for the recognition of the independence of Cuba; also to advocate action on the part of this Government that will put a speedy stop to the inhuman butcheries and nameless crimes committed by the armies of Spain upon the unhappy people of Cuba.

MEMORIALS FROM THE FRUIT-GROWERS OF CALIFORNIA.

*To the Legislature of California:*

GENTLEMEN: I beg to transmit herewith the following memorial from the fruit-growers of California, in convention assembled, December 3, 1896, as follows:

Your memorialists, the fruit-growers of California, in convention assembled in the State Capitol, respectfully represent that, after having duly considered the needs of the horticultural interests of the State, they resolved to petition the Legislature:

First—For \$5,000 per annum, for the uses of the State Board of Horticulture, in prosecuting its work

Second—For \$5,000 per annum, to be used by the State Board of Horticulture, in prosecuting the work of introducing parasitical insects from foreign countries.

Third—There are many investigations that should be made at once, and, if possible, remedies discovered, or the fruit-growers of the State will sustain great loss.

Respectfully submitted.

ELLWOOD COOPER, President.

Attest: B. M. LELONG, Secretary.

Referred to Committee on Ways and Means.

SACRAMENTO, CAL., January 27, 1897.

*To the Legislature of California:*

GENTLEMEN: I beg to transmit herewith for your consideration the following memorial adopted by the fruit-growers, in convention assembled, at Sacramento, November 8, 1895:

Governor Budd, in addressing the convention, said: "I hope in your discussions at this time you will consider what, if any, amendments ought to be made to the laws of this State for the advancement of the fruit industry. Believing that the fruit industry is the coming industry, I will cooperate with you and with the fruit-growers of the State. I ask your body, being better judges of the situation—better judges of the condition of the fruit-raisers of the State—to take up and discuss these subjects, in order that I may have the result of your combined wisdom in recommending a proper law to the Legislature for its enactment."

The subject was discussed and referred to a committee, who reported as follows:

Your committee on legislation respectfully submit the following report:

The laws in regard to the State Board of Horticulture, and the duties and powers of its officers, seem to us to need no change. The law covering the work of the quarantine officer has stood the test of the courts, and should, therefore, not be endangered by amendments, unless these be clearly of the highest value.

The funds of the State Board of Horticulture are derived from legislation. We are of opinion that legislation to secure sufficient funds to carry on the work of the board efficiently and economically should be granted. The work of this Board is of great advantage to the State in general, and especially to its valuable fruit interests, and to interests such as transportation, largely dependent on it. The opportunities its conventions offer to bring all those in the fruit business together, to act in harmony on great questions affecting their business, and to improve the methods of fruit production and fruit marketing, fully justify, in our opinion, reasonable support from the taxpayers. All sound movements in a free country come from and are supported by the voluntary acts of the people. We believe that the State Board of Horticulture and the fruit-growers' conventions are the outgrowth of popular needs, and that the permanent success of the valuable work done and to be done by the board must grow out of local interest. Local gatherings and local societies are indispensable for a reliable interest in the general meetings. We therefore recommend the State Board of Horticulture to encourage the continuance and activity of existing local societies, and the formation of new ones; so that every fruit section in this State shall have a growers' society in its midst. Reports, bulletins, and beneficial insects can be best distributed by local means of this kind.

Respectfully submitted.

(Signed:) ABBOTT KINNEY, A. D. PRYAL, B. F. WALTON, ALFRED HOLMAN, Committee.  
Report received and adopted.

*To the honorable the Senate and the Assembly of the State of California*

GENTLEMEN: The undersigned citizens of Benicia, California, who are engaged in industrial pursuits, respectfully remonstrate against the passage of any law which brings convict labor in competition with free white labor. We respectfully remonstrate against the passage of any measure providing for the crushing of rock at Folsom Prison, to be used for street or concreting purposes within any town or city of the State. We object to this because there are a large number of our fellow citizens now engaged in quarrying stone and preparing it for macadamizing and concreting purposes in the various cities of this State, and who thus support their families, and such labor cannot compete with convict labor in that line.

We do not object to the sale of rock by the State for county road purposes

## CONCURRENT RESOLUTIONS.

By Mr. Shanahan:

### ASSEMBLY CONCURRENT RESOLUTION No. 3.

*Be it resolved by the Assembly of the State of California, the Senate concurring:*

WHEREAS, Many bravely volunteered when called upon by the State of California, between the years 1850 and 1859, to serve as soldiers in suppressing the hostile Indians then waging war against the whites; and

WHEREAS, Most of those who thus served were regularly enlisted and mustered, and the muster-in and muster-out rolls of the companies in which they served were placed in charge of the Adjutant-General of the State of California, the proper custodian of such papers; and

WHEREAS, The State of California employed one John Mullan, of Washington, D. C., to collect certain moneys alleged to be due the State of California from the United States; and

WHEREAS, The Adjutant-General, Treasurer of State, and Controller turned over to and placed in the hands of said John Mullan all of said muster-rolls, books, records, and accounts; and

WHEREAS, None of those who thus served can now obtain any information as to their services, by reason of these rolls, books, and records not being in the hands of the proper custodians thereof; therefore, be it

*Resolved*, That the Adjutant-General, Treasurer of State, and Controller be and are hereby ordered to immediately demand and obtain from said John Mullian all of the aforesaid muster rolls, records, books, and accounts, to place them in their proper receptacles, where the people of this State can have access to them; and said officers are further instructed to furnish any interested party any information sought for that aforesaid records may contain; and be it further

*Resolved*, That the Adjutant-General is hereby instructed to complete or make perfect any rolls of those who rendered service in the Indian hostilities in this State between the years 1850 and 1851, the same as he is instructed to do with those who served in the War of the Rebellion from 1861 to 1865.

Referred to Committee on Federal Relations.

Also:

ASSEMBLY CONCURRENT RESOLUTION No. 4.

*Be it resolved by the Assembly of the State of California, the Senate concurring*

WHEREAS, The State of California did, by an Act approved in 1852, and also April 25, 1857, enact laws whereby those who served the State in the capacity of volunteer soldiers in the suppressing of hostile Indians in the various parts of the State were to be paid for such services by the issuing to them certain bonds, which bonds were payable when the Government of the United States appropriated to the State of California any sums for such purposes; and

WHEREAS, There are still remaining a few of those that thus served who have never received the benefits of said laws of this State; and

WHEREAS, There is a doubt existing in the minds of the present officers of this State, who are, by their acts, constituted a board of examiners for such claims, as to their right to adjudicate the claims presented to them; therefore, be it

*Resolved*, That the Treasurer of State, Controller, and Quartermaster-General be and are hereby instructed to examine and audit any and all claims presented to them under the provisions of the Acts approved in 1852, and April 25, 1857, and to report to the Governor on or before December 15, 1897; and a sufficient sum, not exceeding \$——, is hereby appropriated, out of any funds in the treasury not otherwise appropriated, to meet the expenses of printing the bonds, paying clerk hire, and other incidental expenses.

Referred to Committee on Federal Relations.

JOINT RESOLUTION.

By Mr. Shanahan:

ASSEMBLY JOINT RESOLUTION No. 22.

By the Assembly of California, the Senate concurring.

*To the Congress of the United States*—

We, your memorialists, respectfully represent that during the years from 1847 to 1857 wars were made on the white settlers of the territories of Oregon, Washington, Idaho, and Northern California, and historically known as Cayuse War, Rogue River disturbances, the Yakima and Rogue River Indian wars, and Modoc and other wars. It was, in fact, a collusive effort on the part of all the Indian tribes of the North Pacific Coast to exterminate the American settlement.

During these dark days of the little colony on this coast, one thousand eight hundred men, women, and children were brutally massacred by these Indians. The territorial authorities called for volunteers to suppress these Indians. These volunteers furnished their own horses, guns, and ammunition. They were very poorly clad, and often went days without food.

Forty and fifty years have come and gone since these memorable struggles, in which over one hundred battles were fought, and the very existence of the settlers was threatened. All told, seven thousand of these brave pioneers, at one time or another, enlisted in defense of this land. The majority of them have now gone to their long home. The remnant that remains is a relic of the past, and are aged, infirm, and most of them poor and destitute. To them it seems strange that others who fought in wars before them, and those who fought in wars subsequent to these services, should be pensioned, and they left unrecognized.

We earnestly plead their cause. Their claim is but a just one, and appeals to every patriotic citizen of America.

We earnestly ask Hon. Thomas B. Reed, Speaker of the House of Representatives, and also members of the same, to secure passage at this session of Pension Bill No. 2281 as it came to the House from the Senate. This Government never had more loyal citizens, truer friends, nor more heroic and nobler defenders than these pioneers and veterans; therefore, be it

*Resolved*, That our Representatives in Congress each be forwarded a copy of this memorial and requested to use their utmost endeavor in securing the justice herein prayed for.

Referred to Committee on Federal Relations.

SPECIAL ORDERS—(RESUMED).

It shall contain a paragraph worded substantially as follows:

Following the last word of line 8, Section 3, printed bill, insert "provided, no franchise can be surrendered without the consent of the Board of Supervisors, Board of Trustees, Common Council, or other governing or legislative body of the city and county, city, or town, granting such franchise"

Next following the last word of Section 1, printed bill, "and provided further, that the governing power may reject any or all bids."

REPORT OF BOARD OF STATE HARBOR COMMISSIONERS.

Speaker Coombs announced the receipt of a communication and report from the Board of State Harbor Commissioners.

Ordered printed in the Journal, and referred to Committee on Commerce and Navigation.

BOARD OF STATE HARBOR COMMISSIONERS,  
SAN FRANCISCO, February 1, 1897. }

*To the honorable the Assembly of the State of California.*

GENTLEMEN: The Board of State Harbor Commissioners, in reply to the resolution adopted by your honorable body on January 22d, have the honor to report:

SAN FRANCISCO, January 28, 1897.

HON. E. L. COLNOR, *President Board of State Harbor Commissioners, San Francisco, Cal.*

DEAR SIR: In answer to the two questions submitted to me by you, with reference to the resolutions passed by the Assembly, I desire to submit the following. The first question was as follows:

FIRST—*The present condition of the Belt Line Railroad on the waterfront of San Francisco, the use, if any, made thereof, by whom, and under what terms.*

The Belt Railroad, as it at present exists, starts from the easterly line of Powell Street, along the inner portion of the thoroughfare, to the northerly line of Broadway. The

portion from Powell Street to the intersection of Bay Street is a single track—the remaining portion being double—which track consists of three lines of rails for the accommodation of both standard and narrow gauge cars. Spur tracks from this main line run to the two car freight slips at the foot of Lombard Street, and also to the wharves adjacent to these slips. The track on the northerly of these two wharves brings the ship and car in direct connection. In this line I desire to state that in the four years that I have been Chief Engineer of this board, this said ship-track has been used but four times, and then for the purpose of unloading coal for the use of the San Francisco and North Pacific Railroad Company. The other track on the wharf spoken of is used for the purpose of loading and unloading cattle on the cars. There are also spur tracks to the freight sheds and depot of the following companies: That of the San Francisco and North Pacific Railroad Company, located on Seawall Lot No. 12; the Southern Pacific Company's Santa Cruz Division, located on the same seawall lot; and to the freight depot of the North Pacific Coast Railroad Company, located on Seawall Lot No. 8. There is also a spur track that runs to the coal platform of the first mentioned company, located on Seawall Lot No. 14.

The road at present is used mainly between Lombard and Vallejo streets. There is a spur track, which is occasionally used, which runs from the main line near the foot of Stockton and Beach streets, which runs into the Golden Gate Lumber Company's yard.

The principal business done by the Belt Railroad is between the freight slips and the freight depots of the above-mentioned railroad companies, which consists in handling the cars from the several car freight boats of these companies and placing them on the sidetracks in front of their respective depots and returning them to the boats when required. This is paid for by said companies at the rate of 75 cents per car for each switching; that is, the switching consists of hauling a car from the boat to the freight shed and returning the same. The number of cars thus handled per day for each company, taking an average for a year, is as follows:

For the San Francisco and North Pacific Railroad Company.....	21 cars
For the Southern Pacific Company's Santa Cruz Division.....	24 cars.
For the North Pacific Coast Railroad Company.....	8 cars.

The switching is done mainly between 6 P. M. and 6 A. M.

With regard to the second question, which reads as follows:

SECOND—*What obstructions, if any, by electric or other railroad tracks have been made, on or near that portion of the Belt Line already constructed, or on or near the line of the proposed extension thereof; by what company or companies have the same been made, and by what authority.*

All of those street railroad companies which occupy East Street north of Market Street, and one of those which occupy said street south of Market Street, were originally there under franchises granted by the Board of Supervisors of the City and County of San Francisco. (At the time the said companies built along East Street, the city then had jurisdiction over the inner seventy-five feet of said street.) Prior to November, 1893, there were four tracks on East Street north of Market Street. At that time the Commissioners, at the suggestion of the Chief Engineer, compelled all companies to use two tracks in common; thus doing away with two tracks and gaining fifteen feet additional room. This was done in anticipation of the extension of the Belt Railroad, and from my own knowledge it has been the expressed policy of the board to compel those companies south of Market Street on East Street to occupy two tracks in common upon the completion of the new union depot and ferry-house.

There are no obstructions to the Belt Railroad as far as the same exists; nor will there be any from any street railroad at the present time on the waterfront when the said Belt Railroad is extended.

The annexed permits to street railroads for tracks and stands at the new depot have been given from time to time, but said permits only exist at the pleasure of the board, and may be revoked at any time by them. The prospective crossing of the street lines and Belt Railroad have been anticipated, inasmuch that they have been so arranged that said crossings only occur on portions of straight tracks and not on curves; it has also been especially stipulated that when the aforesaid crossings are required, they shall be built wholly at the expense of the street railroads and to the satisfaction of the engineer of the board.

In the accompanying copies of permits and minutes the roads known as the Hayes Valley, City, Omnibus, North Beach and Mission, Powell, and Broadway roads have since been absorbed by the Market Street Railroad Company, and are known as the Market Street Cable Railroad Company.

The right to use cable upon the various lines of the Market Street road was contained in the original franchises granted to them by the City and County of San Francisco.

With regard to the subsequent granting of the use of the overhead system to the Broadway, Mission, and Folsom branches, it was refused, on recommendation of the Chief Engineer, on March 17, 1892. It was undoubtedly done by the misleading advice of said engineer, who, in his report at that time, stated that the trolley system was only in use in suburban districts and on highways, when, at that period, it had been universally used in the cities of Boston, Philadelphia, Chicago, Portland, Minneapolis, St. Paul, and many others; in fact, thousands of miles of trolley system were then in operation on crowded thoroughfares, and is to-day the only non-experimental and successful system of electric railroads.

The aforesaid right to use poles was granted only under the strongest restrictions; provision being made for the common usage by other companies of the poles and span wires.

Accompanying the report I submit plan showing the proposed location of the extension of the Belt Railroad along that portion of the thoroughfare occupied by the various street railroads

Respectfully submitted.

HOWARD C. HOLMES, Chief Engineer.

The following extracts from minutes and reports of Chief Engineers are correct copies.

J. J. KEGAN,  
Secretary Board of State Harbor Commissioners.

Resolved, That the Ferries and Cliff House Railway Company are hereby given license to construct their tracks and run their cars upon a portion of East Street, the center line of which is described as follows: Commencing at a point where the center line of Clay Street extended in an easterly direction intersects the inner line defining the jurisdic-

tion of the Board of State Harbor Commissioners, and running thence easterly on said extended line of Clay Street two and sixty-one one-hundredths feet, thence on a curve to the right with a radius of seventy-five feet over an arc of eighty-seven degrees and thirty-five minutes, thence at a tangent to said curve in a southerly direction to a line defining the jurisdiction of said Board of State Harbor Commissioners, said tangent to be parallel to, and twenty-five feet distant from the center of the present ingoing track now used by the Omnibus, the Central, the Sutter, and the North Beach and Mission railroad companies. This license is to continue during the pleasure of the board, and said tracks are to be built by said company in strict accordance with said plan and to the satisfaction of the Chief Engineer of this board, and said company is to keep, at its own expense, all the territory within and for the space of three feet on either side outside the lines of their trucks clean and in good order, so as not to be in the least offensive or objectionable to the traveling public.

The board reserves all rights conferred upon it by law upon every portion of East Street.

*City Railroad Company.* [Minutes, May 25, 1888.]

The following petition of the City Railroad Company was then read, and on motion of Mr. Wise, seconded by Mr. Paulsell, it was ordered to be filed and recorded in full on the board's records:

The City Railroad Company respectfully represents to your honorable body that it holds a franchise from the Board of Supervisors of the City and County of San Francisco for a double-track railway from the intersection of Mission and East streets along East Street to Market Street, and desire to obtain from your honorable body your consent or approval to the construction and operation of said railway, and also petitions your honorable body to grant it the privilege of constructing and operating a turntable near the Oakland ferry and approaches therefrom for the purpose of connecting the said line of railroad with such turntable. The said railway and turntable are in lieu of the railway and turntable already laid down and now operated by said company, and are correctly laid down and marked on a map or plan accompanying this petition and filed herewith, which said map or plan is marked as follows: "Plan showing location of tracks and turntables of the Omnibus Cable Company and the City Railroad Company, May 23, 1888."

San Francisco, May 24, 1888.

(Signed:) CITY RAILROAD COMPANY,  
CHAS. F. CROCKER, President.

The following resolution or order was then read, and on motion of Mr. Wise, seconded by Mr. Paulsell, was adopted:

WHEREAS, The City Railroad Company have petitioned for the privilege of constructing a turntable and its approaches and constructing and operating cable railway on the property near the Oakland ferries which is within the jurisdiction of this board, as appears by its petition, accompanied with a plan which is on file and has been adopted and is marked "Plan showing location of tracks and turntables of the Omnibus Cable Company and the City Railroad Company, May 23, 1888." To which petition and plan reference is hereby had.

It is ordered that the City Railroad Company be and it is hereby given the privilege of constructing a turntable and its approaches at the point designated therefor on said plan marked in red ink, thus: "Turntable of the City Railroad Company," and the privilege of constructing and operating its cable railway on East Street from the point where it will enter upon the outer half of said East Street as shown on said plan.

Said turntable and its approaches and said tracks and railway are to be constructed even with the grade of East Street and in strict conformity with said plan and the measurements that appear thereon, and must be fully completed within forty-five days from the time work is commenced thereon. All the work relating thereto must be done in a first-class manner and under the direction and to the entire satisfaction of the board and its Chief Engineer.

These privileges hereby given are to continue during the pleasure of the board, and are in lieu of those given said company on May 12, 1878, and said company so accepts them, and further accepts them subject to and upon these conditions.

First—That it will promptly, at its own expense, remove all its rails and tracks, turntables and approaches, whenever this board gives it notice that the privileges hereby given are revoked.

Second—That it will in case the North Beach and Mission Railroad Company, or any other street or cable company, be hereafter authorized by this board to extend its line to the Oakland ferries along East street, permit said North Beach and Mission Railroad Company, or such other street or cable company (upon paying its proportionate compensation therefor), to run over and upon its tracks, and to use its cable along East Street to the place of the turnout to the turntable that may be used by said North Beach and Mission Railroad Company, or such other street or cable company.

Third—That it will, at its own expense, keep all the territory within and for the space of three feet on either side outside the lines of its tracks, and for the space of eight feet outside its turntable, and the approaches thereto, clean and in good repair, so as not to be in the least offensive to the traveling public, and in default of so doing the board can repair the same at the expense of said company.

Fourth—That neither the State, nor this board, nor its members, nor any of its officers, shall be liable for any damages done to said City Railroad Company by the construction of the seawall and the improvements to be placed thereon.

*North Beach and Mission Railroad Company.* [Minutes, March 22, 1892]

The North Beach and Mission Railway Company was granted permission to lay down rails for their street railroad on East Street, from Folsom to near Market, according to the recommendation of the Chief Engineer on file.

*Report of Chief Engineer Manson on N. B. & M. Railway Company.*

SAN FRANCISCO, CAL., March 17, 1892.

*To the honorable the Board of State Harbor Commissioners.*

GENTLEMEN I respectfully report in the matter of the application of the N. B. & M. Railway Company for the privilege of building a street railway upon East Street, from Folsom to near Market, and operate the same by electricity applied from overhead wires and trolleys, the wires to be suspended from center poles having arms to the center of each track.

The route which will least inconvenience traffic and future development is as follows: The track from Folsom Street to Howard Street to be parallel with the building line, and the westerly rail to be 44' 6" distant therefrom, from Howard Street to opposite the terminal, the N. B. & M. Railway to use the two inner rails of the Omnibus Cable track, and to lay one outer rail on each side to accommodate the wider gauge of their cars, with proper switches and curves for a turnout to the terminal just south of the present crosswalk.

It is recommended that this route be granted.

In the matter of motive power:

The applicants have asked for permission to use the overhead wire and trolley system. This is permissible in suburban streets and highways, but is objectionable in so crowded a thoroughfare as East Street is destined to be. The application is based upon a franchise granted by the city and upon subsequent laws permitting the use of electricity over all rights of way and franchises, giving power to use other methods, but restricting such use of electricity as regards public commerce and welfare. The overhead wire and trolley system is one of several methods of using electricity, and is chosen for its cheapness and ready application. To inaugurate its use on the waterfront highway would greatly impair its usefulness, and render it advisable to deny future applications of the same character.

It is therefore recommended that the privilege to use electricity by this method be denied.

Very respectfully,

MARSDEN MANSON, Chief Engineer.

*Broadway Electric Railroad.* [Minutes, Nov 9, 1893]

On motion of Mr Brown, seconded by Mr. Bassett, the Market Street Railway Company was granted the privilege of laying street railroad tracks on East Street, from Broadway to the north line of Jackson Street, extended easterly, according to plans submitted and dated November 9, 1893. Said company to construct all crossings of the Belt Railroad at their expense, and to perform all work according to the directions and to the satisfaction of the Chief Engineer of the board, and to remove any or all rails at the order of this board.

*Agreement to Grade and Repave Portion of East Street.* [Minutes, Dec. 7, 1893.]

H. H. Lynch, of the Market Street Railway Company, appeared before the board and agreed to raise to grade and repave the center sixty feet of East Street, between Broadway and Jackson streets.

*Location of the Railroad Termini.* [Minutes, Aug. 22, 1893.]

The plan for the location of the termini of the street railway companies at the foot of Market Street, submitted by the Chief Engineer, was adopted by the board. The Chief Engineer also presented suggestions regarding the pattern of rail to be used, character of paving, etc., to be laid by the companies, and that each company must bear the expenses of crossings on the Belt Railroad when it shall be extended, was also adopted by the board.

*Permission Granted Market Street Railway Company to Erect Poles and Wires on East Street* [Minutes, April 3, 1894.]

On motion of Mr. Cole, seconded by Mr. Chadbourne, the following resolution was adopted:

"Resolved, That the application of the Market Street Railway Company, dated March 29, 1894, to erect poles and wires on East Street, between Folsom and Market streets, as therein named, be and the same is hereby granted, subject at all times to control thereof and termination of any right at the pleasure of this board, without notice, and subject further to all of the terms and conditions as specified in the report of the Chief Engineer in regard thereto, which has thus far been adopted and filed."

*Report of Chief Engineer Holmes on Erecting Electric Poles on East Street, between Broadway and Folsom streets, by the Market Street Railway Company.*

SAN FRANCISCO, CAL., April 2, 1894.

*To the honorable the Board of State Harbor Commissioners.*

GENTLEMEN I desire to submit the following suggestion with regard to placing of poles on East Street, between Broadway and Folsom streets, by the Market Street Railway Company

First—The poles where the span is one hundred and twenty feet or less should be constructed of extra strong or hydraulic pipe (in three lengths of six, seven, and eight inches in diameter, inside measurements) with cast-iron trimmings at joints, top, and base. They should be set in blocks of concrete, three feet square, at least five feet long, containing not less than one fifth part cement

The longer spans to have special poles, such as may be accepted by the Chief Engineer of the board.

Span wires to be of galvanized steel cable, three eighths of an inch in diameter.

The guard wire to be of No. 4 B. and S. gauge, galvanized steel wire.

The span wire for guard wire to be of separate wire of one fourth of an inch in diameter, galvanized steel cable, and the said guard wire to be insulated from its own span wire with special guard wire insulated holders of approved design.

Second—There should be track and overhead switches from one track to the other, just west of East Street, on Folsom, Mission, and Broadway streets, and the wires should be divided into sections at each of these streets by means of trolley wire sectional insulators of approved design, which shall thoroughly insulate the different portions of trolley from each other. In other words, the portion of trolley on East Street should be capable of being cut out of the main lines.

If desired, the sections of trolley wire thus insulated may be connected together through a high tension switch and fuse block. This switch should be of the proper size, so that the circuit may be open when full load is on east section of trolley wire.

If separate feeders connect into East Street section of trolley wire, there should be a high tension switch and fuse block in each feeder circuit, so placed that the feeder may be cut off from the trolley wire on East Street at the nearest point. These sectional switches and fuse blocks should be in an easily accessible position.

The object of the above would be that in case it is necessary at any time to temporarily remove the trolley on East Street for the purpose of moving a building or pile-driver, or in case of a fire, that the current may be cut off from that portion of the wires on East Street without stopping the balance of the road.

Trolley wires should be placed at least twenty-one feet above the surface of the track. All work should be done to the satisfaction of the Chief Engineer of the board.

I would also suggest that if in the near future such improvements are made in the operating of electric railroads as to dispense with the overhead construction, that it be understood with the Market Street Cable Railroad Company that they will make such changes and improvements when requested by the Board of State Harbor Commissioners.

Respectfully submitted.

HOWARD C. HOLMES, Chief Engineer.

THIRD—*What arrangements, plans, or contracts, if any, have been made for the use of any part, or all, of the new Market Street depot when completed, with what company or companies have the same been made, and by what authority.*

Responsive to the foregoing interrogative, the board desires to say that they have made no arrangements with any party or parties whatever for the use of the new ferry building when completed. The only negotiations that have been undertaken relative to space and rent have been conducted with the postal agents of the Federal Government, looking to the settlement of the matter of the space required, and the rent which the department is willing to pay for accommodations in the new edifice, in order that such changes in the partitioning of space as are necessary may be made in time to prevent any interruption in the work of construction. The proposition of the board is that the Government shall pay a flat rate of \$1,000 a month for the space indicated in the report of the architect herewith presented; but the agents of the Government insist that this shall include lighting. We think that an agreement can be reached whereby the State will procure a permanent tenant at a good rental (not less than \$300 net, probably), and as this can be done without encroaching upon the area necessary to accommodate the public, the board are in favor of the proposition, especially as the establishment of a distributing point for mail matter at the ferries would be a great convenience to the people in facilitating the dispatch of mail matter.

There is no lease of any State property on the waterfront except that authorized by the Act of March 26, 1895, relating to certain seawall lots, and there can therefore be no lease of privileges in the new depot. All tenants are now and will hereafter be subject to the will of the board. The first section of the new building, the steel work of which is now erected, will not be available for occupancy inside of a year, so that the question of rentals, excepting the case of the post office, which will require an elevator and some other important changes in the construction, is some distance in the future. The divisions of space set forth in the report of the architect herewith presented have been made

solely with a view to the accommodation of the traveling public after a careful study by the board and its officers of the needs of the situation.

The board would call the attention of your honorable body to the difficulty of erecting so large a structure practically over the heads of the people, an average of thirty thousand of whom pass to and from the ferries daily. It is being built in three sections, the first, or middle, of which it is hoped to have ready for occupancy within a year. Not until this is finished and occupied can work be commenced upon the remaining portions. The utmost care is constantly required to prevent the danger of accidents to the traveling public, many of whom are obliged to pass under portions of this great construction on their way to and from the ferries. Thus far no harm has come to any one.

*FOURTH—What arrangements, plans, or contracts, if any, have been made for the use of any slip at the foot of Market Street and adjacent space, with what company or companies, for what purposes, for what length of time, at what rental, and under what conditions and reservations.*

*Ferry Slips Foot of Market Street Assigned.*—The ferry slips at the foot of Market Street, adjacent to the union depot and ferry-house, have been assigned to the following companies, and the monthly rentals fixed as follows:

Slip No. 1, North Pacific Coast Railroad Company .....	\$400 00
Slip No. 2, San Francisco and North Pacific Railroad Company ....	500 00
Slips Nos. 4, 5, 6, and 7, and the south side of the wharf next to Slip	
No. 7, which is occupied by the Sacramento River boats of the	
Southern Pacific Company.....	3,500 00

The assignments are made in lieu of dockage only, tolls being collected on all freight, etc., and are terminable at the pleasure of the board. During the erection of the foundations of the approaches to ferry slips and the union depot and ferry-house, the ferry-boats have been often moved from the slips assigned them as the exigencies of travel and construction demanded.

*FIFTH—What addition, if any, has been made to the original estimate of cost of said depot, including foundations thereof, giving such original estimate, total cost when completed, and from what fund payments have been and are now being made.*

*Union Depot and Ferry House, and Foundation.*—The following statement shows the cost of the foundations to approach the ferry-slips on which the union depot and ferry-house is being erected, and the cost of the building, and the total cost of both, including the fees of the architects, and the funds from which they have been paid. The total amount of cement contracted for is given in the statement, but only the actual amount used in the construction is charged to the foundations. The remaining 4,181 barrels, costing \$10,243 45, were used in the construction of cylinder piers for Pacific and Folsom Street wharves, and was charged to the expense of those piers.

In the payment of the fees of the architect for the building, a draft for \$12,500 was paid to A. Page Brown, architect, drawn against the San Francisco Harbor Improvement Fund, which was allowed by the State Board of Examiners; but all subsequent payments of architect's fees have been paid by drafts drawn against the San Francisco Depot Fund, in accordance with a suggestion of the State Board of Examiners.

SIXTH—What is the number of slips, also of piers, from which use can be made of said depot for the landing of passengers.

*Available Ferry Slips foot of Market Street.*—There are seven ferry slips at the foot of Market Street, contiguous to the depot, which could be used for the landing of passengers. Slip No. 7 is at present occupied by the Creek Route ferryboat, which is engaged chiefly in transporting freight and teams, and the few passengers carried do not pass through the depot. Slip No 3 is unassigned at present, and could be used by any ferryboat desiring to do so. Slips Nos 4, 5, and 6 are used by the Oakland and Alameda ferryboats, the extra slip being utilized when the boats are compelled to lay over by fog or stress of weather. One of these slips, when necessary, could be assigned to another company, and different arrangements made for layover landing. Slip No 1 is assigned to the North Pacific Railroad Company, running to Sausalito; and slip No. 2 to the San Francisco and North Pacific Railway Company, running to Tiburon. The wharf on the northerly side is used by the Union Transportation Company, their boats plying between this city and Stockton, and the United States steamer General McDowell. The wharf on the southerly side is occupied by the boats running to Sacramento, and owned by the Southern Pacific Company.

*EIGHTH—What is the proposed plan of said board for use of said depot, slips, and piers, and what number of transportation companies can be accommodated by the same.*

As in the case of the charge for rent, except in the instance of the single proposed tenant whose occupancy would require some change in the plans, this matter has not yet been formally considered, the determination being thought to belong to the future, when the personnel of the board will have been changed.

As to the number of transportation companies that can be accommodated by "said depot, slips, and piers," this would depend a great deal upon the volume of the transportation business conducted by said companies. It is safe to say that there will be ample room for all the existing companies having terminal facilities at the foot of Market Street and as many more as will be likely to require such facilities for some time to come. The design of the building is such that additions at either end can be made to it whenever the requirements of traffic demand increased accommodations. The answer to question No. 8, however, may be found also under question No. 8, which covers some of the same ground.

The commissioners regret that they could not have had more time in the preparation of this report, although nothing which is shown by the records has been omitted.

They would prefer, however, to have been given more time in arranging the data in consecutive order and putting the matter in possibly more readable shape; but a letter from the honorable Chairman of the Assembly Committee on Commerce and Navigation, expressing to us the desirability of a prompt response on our part, impelled us to the greatest possible haste consistent with the accuracy of the work.

Should your honorable body desire any additional information on any of the topics enumerated in the resolution directed to us, the members of this commission, together with its Chief Engineer, the Secretary, or such other officers or employes as you may wish to call, will be pleased to appear and give such oral testimony as they may possess.

Very respectfully,

E. L. COLNOR,  
President Board of State Harbor Commissioners.  
J. J. KEEGAN,  
Secretary.

#### RESOLUTION.

By Mr. Landsborough:

*Resolved*, That the Secretary of State be and he is hereby instructed to furnish free to each member of the Assembly a set of the Debates of Constitutional Convention of 1879

Referred to Committee on Ways and Means.

PETITION.

Mr. Burnett presented the following petition, and asked that it be published in the Journal.  
So ordered.

*To the honorable Legislature of the State of California.*

Your petitioners desire to present to the Senators and Assemblymen of the State of California, in Legislature assembled, and to his Excellency the Governor of the State, the following facts and petition, in order that they may take intelligent action upon the proposition of granting an appropriation for the establishing of a State Normal School in the City of San Luis Obispo, California:

COMPARISON OF AREAS.

We would call your attention to the great area of our State—being about the area of all the New England States and the great States of New York and Pennsylvania in addition, and having a length of more than seven hundred miles, from northwest to southeast. An equal distance on the Atlantic coast would extend from the northern line of Connecticut to the southern line of South Carolina.

NECESSITY FOR ANOTHER NORMAL SCHOOL.

We make this comparison in order to show that in a like area on the eastern coast there are one hundred normal schools, besides a great number of other institutions of learning, while in our State there are but three normal schools. These, as well as the State University and independent institutions, are overcrowded—there being in the normal school at San José 700 students, at Los Angeles 600, and at Chico 450. Superintendent Black, in his last report, calls attention to this state of affairs, and dwells upon the disadvantages of overcrowded classes.

PECULIAR ADVANTAGES OF SAN LUIS OBISPO AS A LOCATION FOR A NORMAL SCHOOL.

The Normal School at Chico is situated in the northern part of the Sacramento Valley. Between San José and Los Angeles is a distance of 400 miles. San Luis Obispo is situated midway between these two schools, and for the purpose would be the center of an area of 80,000 square miles of a populous and productive portion of the State. That such a vast area, so full of resources and advantages, is entitled to most careful consideration in matters of educational facilities, is apparent to every statesman and good citizen.

DESIRABILITY OF THE CITY OF SAN LUIS OBISPO AS A LOCATION FOR A NORMAL SCHOOL.

The City of San Luis Obispo lies within the limits of the trade winds from the Pacific Ocean, and is the nearest point on the ocean to the great interior valley of the Upper San Joaquin from Fresno southward. The healthfulness of the locality and the salubrity of the climate are not surpassed by the most favored spots of the world. These facts are so well known as to make a detailed statement of meteorological conditions seem superfluous. We will, however, say that the records of rainfall and temperature have been kept for the past twenty-five years, showing an average annual rainfall of 21 inches and an average temperature of the four warmest summer months of 63°, and of the four coldest winter months of 52°. No section of the State can present a more favorable record. In all the record of twenty-five years there are not five days showing a higher register of temperature than 100° in the daytime, and in no night of the history of San Luis Obispo has there been an uncomfortable one for sleeping. While light white frosts occur nearly every year, hard freezing is unknown.

The following comparative statement for the two years last past, prepared by the Government Observer stationed here, will bear us out in these claims:

UNITED STATES DEPARTMENT OF AGRICULTURE, WEATHER BUREAU, )  
OFFICE OF THE OBSERVER, SAN LUIS OBISPO, January 9, 1897. (

GENTLEMEN: I have the honor to report that from the meager data on file at this station, I find that for the years 1894, 1895, and 1896 the maximum temperature was: Los Angeles, 103°; San Diego 98°; Red Bluff, 109°; Fresno, 111°; San Luis Obispo, 99°. Lowest temperature: Los Angeles, 32°; San Diego, 32°; Red Bluff, 27°; Fresno, 28°; San Luis Obispo, 28°. Highest wind: Los Angeles, 30 miles per hour; San Diego, 35; Red Bluff, 46; Fresno, 34; San Luis Obispo, 33. The mean of two years at San Luis Obispo is as follows: Mean barometer, 30.04; mean temperature, 58.9°; highest 99°, lowest 28°, dew point, 46°; humidity, 70, rainfall, 19.47 inches; clear days, 195; partly cloudy, 103; cloudy, 62; rainy, 48; foggy, 37. Average wind velocity, 5.2 miles per hour. The annual reports of this bureau for 1895 and 1896 are not yet published, so I cannot furnish any data comparing San Luis Obispo with other stations. Very respectfully,

JOHN R. WILLIAMS, Observer.

For a comprehensive report of meteorological conditions at San Luis Obispo, extending over a number of years, see report of Sergeant James A. Barwick for the year 1889, pages 136 and 137, published at State Office

The City of San Luis Obispo is the county seat of San Luis Obispo County, and is one of the choice locations in the State. It is one of the old Mission towns, its Mission having been established in 1772; is a city of the sixth class, having a population of about 4,000; a well-organized city government, with efficient fire and police departments; is well supplied with water by a complete system of water-works; is supplied with electric lights, gas, street railways, telephones, etc; has a good sewer system, a public library, free reading-room, churches of many denominations, two daily and three weekly newspapers. No malaria exists in the atmosphere, and contagious and infectious diseases are never epidemic. County Superintendent Messer, who has been a teacher in our public schools for six years, says that San Luis Obispo has no superior as a locality in which constant mental effort may be sustained. He states that during the six years not ten days occurred in which students would feel discomfort in pursuing their studies on account of heat.

#### ACCESSIBILITY.

The Southern Pacific Railroad passes through the city, soon to be the great thoroughfare between the northern and southern parts of the State, and the route of trans-continental travel and freight. A branch of the Southern Pacific now extends from Bakersfield westward to the eastern border of San Luis Obispo County, with the promise of extension to intersection with the main north and south line of that road. There will also soon be constructed an independent railroad, connecting San Luis Obispo City and harbor with the chief cities of the Upper San Joaquin Valley. The Pacific Coast Railway, with a length of near eighty miles, connects the city and harbor with the various towns of Santa Barbara County, north of the Santa Ynez Mountains. The great ocean fronts the county, and with the best harbor between San Francisco and San Diego, affords cheap transportation, and, as a competitor, will always maintain low schedules. At this harbor the National Government is now constructing a breakwater which will make of San Luis Obispo Bay a harbor of ideal perfection.

#### OTHER ATTRACTIONS.

The region is diversified with hills and valleys, affording the most beautiful and picturesque scenery of California; scenery never tiring to the eye, attractive and ennobling to students and artists. The geological and mineralogical formation is such as to constitute an endless and very useful subject of study. San Luis Obispo County is distinguished for its many and varied rocks and minerals, and these offer subjects for the practical student as well as material for building purposes. Our seaside resorts are unsurpassed by any in the State. The famous Pismo Beach, affording a continuous drive of twenty-five miles, is situated ten miles to the southward; Morro, one of the most popular resorts for families from the interior, twelve miles northward, and Avila, near Port Harford, nine miles westward.

#### CHEAPNESS OF LIVING.

San Luis Obispo is situated within a few miles of the Arroyo Grande Valley, the prize garden spot of the world, and is surrounded by dairies, orchards, and vineyards. Meats, fruits, and vegetables are abundant and cheap the year round, making this one of the most desirable places in the world for students who must practice economy in their living.

#### OUR OWN NEED OF A NORMAL SCHOOL.

This county alone now annually graduates from the grammar schools nearly one hundred pupils, who, by their diplomas of graduation, are admitted to the State Normal School at San José without any examination. Many of these graduates have gone at great expense to the normal schools at Los Angeles and San José, and many more are anxious to go, but are not able to bear the expense. This county has employed for a number of years about thirty-five per cent of its teaching force from the City of San José, while our own young people, the peers of any in the State in natural endowments, are doomed to less honorable and lucrative employment because advanced educational facilities are not within their reach.

#### CONCLUSION.

The foregoing facts and figures are sufficient to show why the City of San Luis Obispo should have precedence of all cities on the southern coast as an eligible location for a State Normal School. In the geographical center of a large, populous area, unexcelled in climatic advantages and healthfulness; easily accessible from all points; its diversified scenery and seaside attractions; its desirability as a residence locality, its assured growth in the immediate future; its advantages for economical living, and the great and increasing necessity for such a school for the accommodation of the young people who inhabit this region, San Luis Obispo presents claims worthy of the consideration and affirmative action of our honorable State Legislature and his Excellency Governor Budd. For such consideration and affirmative action your petitioners will ever pray.

The foregoing was presented to the citizens of San Luis Obispo by a committee consisting of Myron Angel, W. A. Henderson, and J. K. Tuley, they having been appointed

for the purpose, and the report was adopted by the citizens in meeting assembled; at which meeting it was

*Ordered*, That the secretary of this meeting be directed to forward copies of the report of the Committee on Petition to the Legislature to the Hon. S. C. Smith and to the Hon. J. K. Burnett, at Sacramento, with a request that they use every honorable endeavor to induce the passage of an Act for the establishment of a normal school in the City of San Luis Obispo.

JOHN WHICHER, Secretary.

#### JOINT RESOLUTION.

Mr. Bridgford moved that the Assembly do now consider Assembly Joint Resolution No. 14.

So ordered.

#### ASSEMBLY JOINT RESOLUTION No. 14.

Resolution relative to the publishing of monthly reports by the Secretary of Agriculture.

WHEREAS, Agriculture is the chief basis of the wealth of this nation, and is entitled to all reasonable encouragement at the hands of the Government; now, therefore, be it *Resolved by the Assembly, the Senate concurring*, That our Representatives in Congress be and they are hereby requested and our Senators are instructed to use their best efforts to secure the passage of a law making it the duty of the Secretary of Agriculture to procure accurate monthly reports from our representatives in all foreign countries, and from other available sources, the condition of growing crops, visible supply, etc., of such agricultural products as this country exports, and that said Secretary of Agriculture speedily make a summary statement in convenient form of said reports, and cause the same to be forthwith forwarded to the Secretary of State of the respective States of the Union, to be published for the benefit of the public;

*Resolved*, That a copy of this resolution be forwarded by mail by the Secretary of State to each of our Senators and Representatives in Congress.

So ordered.

ASSEMBLY JOINT RESOLUTION No. 25.

Relating to the purchasing and making free by the United States Government of the toll roads passing over the Yosemite National Park in the State of California.

WHEREAS, The State of California did in the years 1885 and 1889 purchase and make free the portions of those certain three toll roads lying within the bounds of the grant of the Yosemite Valley (containing about thirty-six thousand acres) made to the State of California by Act of Congress passed June 30, 1864, said roads having been built into and over said grant by permission of the State of California and the commissioners to manage said park provided by said Act of Congress; and

WHEREAS, The Congress of the United States did on October 1, 1890, pass an Act establishing the Yosemite National Park, containing about one million acres, in the center of which the said original Yosemite Valley grant lies, but did not provide for the making free of the said three toll roads which pass over said National Park and into said Yosemite Valley, or for the making free of that certain fourth toll road which passes through said park, but not into said Yosemite Valley; and

WHEREAS, The United States Senate at the last session of the present Congress, on May 18, 1896, passed a bill authorizing the purchase and making free of the said three toll roads in the Yosemite National Park from their beginnings at the public highways outside of the National Park to where they cross the boundary line of the Yosemite Valley grant, and of the said fourth toll road from its beginning in the Yosemite National Park to its terminus beyond the boundary of the Yosemite National Park, at the actual value of the said four toll roads, to be ascertained by three officers of the engineer corps of the regular army, to be appointed by the Secretary of War; and

WHEREAS, The Yosemite National Park is visited annually by many thousands of Californians and others, and it is a matter of great importance to the people of the United States, and particularly to the people of the State of California, that these toll roads should be made free by the National Government, and the anomaly of paying tolls in a people's park be done away with; therefore, be it

*Resolved by the Assembly, the Senate concurring,* That the same policy which induced the State of California to buy and make free the toll roads and trails in the California Yosemite Valley grant should also influence the National Government to buy and make free the toll roads which traverse the Yosemite National Park, and that we urgently request our Senators and Representatives in Congress from this State to give immediate, earnest, and united support to the bill now before Congress, and to use all means in their power to secure the passage of the bill at the present session of Congress; and be it

By Mr. Treacy:

#### ASSEMBLY JOINT RESOLUTION No. 27.

WHEREAS, The seamen of our country are subject to arrest and imprisonment for leaving a vessel before the expiration of the term of service agreed upon; and

WHEREAS, This condition imposes upon our seamen a penal punishment for the violation of a civil contract, and is obviously an infringement of the Thirteenth Amendment to the Constitution of the United States; and

WHEREAS, The House of Representatives, at the first session of the Fifty-fourth Congress, passed Bills Nos. 2663 and 6399, which abolish imprisonment for desertion, besides inaugurating several other much needed reforms on the condition of our seamen; and

WHEREAS, The Committee on Commerce of the United States, through its Chairman, Senator Frye, has at the present session of Congress introduced substitutes for House Bills Nos. 2663 and 6399, which not only reaffirm the law of imprisonment for desertion, but also reenact a number of primitive measures which had previously been repealed; and

WHEREAS, Senator Frye has intimated that unless the United States Senate will accept his substitutes without amendment he will allow the entire matter to die in committee; therefore, be it

*Resolved*, That we condemn the principle of imprisonment for desertion among our seamen as unjust to them, unnecessary to commerce, and repugnant to our sense of American liberty; and, moreover, in view of the recent decision of the United States Supreme Court in the Arago case, we deem such law a menace to the personal rights of every other class of workers; and further

*Resolved*, That we urge the United States Senate to recall House Bills Nos 2663 and 6399 from the Committee on Commerce, and to pass upon them as sent from the House of Representatives; and further

REPORT OF SPECIAL COMMITTEE OF INVESTIGATION—(OUT OF ORDER).

ASSEMBLY CHAMBER, SACRAMENTO, ———, 1897.

MR. SPEAKER: The special committee appointed to investigate the temporary organization of the Assembly have performed that duty, and herewith submit their report:

The amended resolution authorizing the investigation is as follows:

"WHEREAS, Charges of a serious nature have been made relative to frauds said to have been practiced during the temporary organization of this Assembly; and

"WHEREAS, The Chief Clerk of the Assembly, S. J. Duckworth, is charged with complicity therein, and he denies said charges; therefore, be it

"Resolved, That a special committee of seven be named by the Speaker of this Assembly to investigate all of said charges relative to the organization of this House, and to report its findings to this House. Said committee shall have full power to subpoena witnesses, administer oaths, take testimony, and such other powers as shall be necessary for the full performance of their duties."

Under this resolution the power of the committee is restricted to reporting its findings. This we understand includes the power to express an opinion, but does not include the power to make recommendations.

The resolution was adopted January 26, 1897, and the committee began its work the same day. Mr. Chynoweth, of the Assembly, has kindly attended all our sessions, and given valuable assistance, in the examination of witnesses. Mr. Duckworth was represented by counsel, and the committee has heard the testimony of all witnesses whose presence was deemed important. The reporters' transcript of the testimony and the exhibits are submitted herewith, and are referred to for information as to details.

The only statute concerning the attachés who must be present at the organization of the Assembly is Section 237 of the Political Code, which is as follows:

"The Secretary of the Senate, the Minute Clerk, and Sergeant-at-Arms of each house for any session, must, at the next succeeding session of the body, perform the duties of their offices until their successors are elected and qualified."

It is evidently the intention of this law that only the Chief Clerk of the Assembly, the Minute Clerk, and the Sergeant-at-Arms of the Assembly should hold over from one session to another. They are required to attend, and are, therefore, entitled to mileage. No other attachés have any claim to mileage. It is also clear that the law contemplates that these officers should ordinarily be sufficient to organize the Assembly. It does not, however, expressly prohibit the employment of other attachés, and it has been the custom of the Assembly for many years to employ additional help. The number so employed has increased each session, until the rolls for 1893 show a total of twenty-eight, and those of 1895 show forty-nine. A careful inquiry as to the actual work to be done at the organization of the Assembly convinces us that the following would be an ample force: A Chief Clerk, Chaplain, Minute Clerk, Sergeant-at-Arms, one Assistant Sergeant-at-Arms,

Postmistress, Mail Carrier, three Gatekeepers, and five Pages—fifteen in all. Their total per diem should not exceed \$74. We find that at the organization of the present Assembly the Chief Clerk appointed attachés as follows:

Assistant Clerks .....	10
Assistant Minute Clerks .....	6
Assistant Sergeants-at-Arms .....	6
Clerk to Sergeant-at-Arms .....	1
Journal Clerk .....	1
Assistant Journal Clerks .....	4
Engrossing Clerk .....	1
Assistant Engrossing Clerks .....	6
Enrolling Clerk .....	1
Assistant Enrolling Clerks .....	5
Postmistress .....	1
Assistant Postmistress .....	1
History Clerk .....	1
Assistant History Clerks .....	3
Porters .....	17
Bookkeeper to Sergeant-at-Arms .....	1
Bill Clerks .....	6
File Clerks .....	6
Chaplain .....	1
Mail Carrier .....	1
Janitress .....	1
Doorkeepers .....	6
Watchmen .....	6
Pages .....	12
Elevator Attendants .....	2
Messenger to State Printer .....	1
Electrician .....	1
Gatekeepers .....	2
Position not designated (Ella Bateman) .....	1
Total .....	112

The total amount allowed for per diem was \$3,961 30, and for mileage, other than to statutory officers, \$303 80. Total, \$4,265 10. As already stated, we find that fifteen attachés—twelve in addition to the three statutory officers—would have been ample, and the aggregate of the per diem that should have been allowed at this session is \$74. This includes the \$24 of per diem to the Chief Clerk, Sergeant-at-Arms, and Minute Clerk. For the necessary additional attachés \$50 was sufficient and all that should have been paid. We find, therefore, that \$4,215 10 has been paid out in excess of the sum actually necessary.

None of the attachés should be paid for more time than they serve. It has been the custom to allow per diem for an entire week, on the plea that the attachés come to the Capital at a sacrifice of time which makes it proper. There is no justice in this claim. The statute only requires three officers to attend, and there is sufficient compensation to them for the time occupied in coming and going, in the mileage allowed by law, which always exceeds the actual traveling expenses. The other attachés are not required to attend, and if they do so voluntarily they have no right to ask pay for extra time. As a matter of fact, they usually come to seek reemployment.

In this connection we must say that the Committee on Mileage, in our opinion, were grossly negligent, not only in recommending mileage, but also in recommending the payment of a full week's pay to all the attachés. It was their duty to diligently inquire into all the facts, as their report was designed to guide the Assembly. Had they made proper inquiry of any experienced member, they would at once have discovered the illegality of the surplus appointments, and would have prevented the evil consequences resulting.

We feel it our duty, also, to say that all the members of the Assembly who voted for the adoption of the report of that committee are censurable for their negligence. Had they given the matter the proper attention, they would have learned that the report was wrong, and that the payments recommended were without any justification whatever, in so far as the excessive appointments were concerned. It is apparent that those who had previously served in the Legislature are more to blame than those who were just entering upon their first experience. The testimony shows that a portion of the attachés were appointed with the knowledge and at the request of the members as follows:

Frank Barnett, by Mr. Leavitt, J. L. Olver, by Mr. Wright; H. A. Jackson and I. Erb, by Mr. Kelly; Ben Martin, by Mr. Caminetti; James Devitt, M. Aronson, J. Wintringer, and C. Ewing, by Mr. Henry; J. C. Gross (at request of Mr. Cross), by Mr. Vosburg; James Bowen and S. H. Wilson, by Mr. Breiling; Donald Bruce, by Mr. Dibble; W. J. Keating, by H. H. North; John Wise, by Mr. J. W. Power; R. M. Richardson and Mrs. W. Sampson, by Mr. Valentine; W. H. Rice (at request of Mr. Bettman), by Mr. Harris; T. Smith, by Mr. Dolan; W. S. Kingsbury, by Mr. Kenyon; F. C. Smyth, by Mr. Chynoweth; A. H. Smith, by Mr. Belshaw; A. S. Vischer, by Mr. Jones; N. G. Duckworth, by

Mr. Treacy; George North, by A. W. North; W. Levinson and E. Sheridan, by Mr. Denery; W. Bullock, W. Hopkins, and W. S. Staley, by Mr. Price; J. Brooks, by Mr. Bettman; Charles Forbes, by Senator Voorheis; Ray Byron, by Mr. Arnerich.

Mr. Jones admitted that in the case of J. P. Devine, A. A. Friedlander, S. Voorsanger, and R. Blakeston, he authorized them to use his name.

We think the members who requested appointments, or lent their names to justify them, are specially deserving of censure. Yet it is to be said in their defense that they had a right to make requests for appointments, knowing that some should be made, and that they had a right to presume the Chief Clerk would do his duty and make no more appointments than were actually necessary for the public service. With much more force it may be said in defense of all the members that they were occupied largely in the consideration of the Senatorial contest, and in the examination of the numerous and voluminous printed reports of public officers preparatory to the commencement of their legislative labors. While thus occupied they had a right to trust the Chief Clerk to attend to the details of the organization. He had nothing to do but to organize the House. His mind was free from other cares. He had been a member of the Legislature, and had served as Chief Clerk at the last session. It was fair to presume that he was familiar with the duties of his office, and would honestly perform them.

We are of the opinion, and so find, that the Chief Clerk deliberately and intentionally appointed the aforesaid unnecessary attachés. He offers no excuse for his conduct, except the desire to reward the persons appointed for their political services. He has even declared to representatives of the press that if the law is not changed, he will, at the next session of the Legislature, pursue the same course, even to the extent of exhausting the Contingent Fund of the Assembly, by appointing, if requisite for that purpose, a thousand attachés.

This is the unfortunate culmination of a bad practice, which has increased session after session, in consequence of the importunities of people who come to look upon politics as a trade—a means of gaining a living. They seem to forget that the members of the Legislature are but the people themselves, assembled in their representative capacity—assembled for the purpose solely of legislating for the common good of the whole State. They disregard the fact that representatives are trustees, and have no right to expend one dollar of the public funds without a fair equivalent in service or material; that every dollar paid out from the public treasury for an unnecessary servant is money deliberately perverted in violation of a sacred trust. They work for their party, it is true, but should, if they are good citizens, do so because they believe that the success of their party is necessary to good government, in which they, as well as others, are concerned. In other words, they work for themselves when they work for their party.

The Chief Clerk is a man of unusual intelligence, and no one understands better than he how indefensible is his conduct. We are happy to say that the evidence does not disclose any attempt on his part to profit financially by his appointments; but this fact by no means justifies his conduct. By the unnecessary appointments he has made he has enabled others to abstract from the public treasury a large sum of money which it will be difficult, if not impossible, to recover. His example, if unrebuked, would be imitated by others in the future, and this disgraceful abuse, instead of being stopped at once and forever, as it should be, will go on increasing until its evil effects are felt in other departments of the public service. It is not necessary to multiply words in condemnation of his action. While we believe a complete remedy will require legislation, either in amendment to the statute or of the Constitution, or both, we think also that it is necessary that the one who, by showing himself unworthy of the trust reposed in him, has brought about this unfortunate state of affairs, should be made to suffer. As we have already stated, we find no authority in the resolution under which we are acting to authorize us to recommend any specific punishment, and we must leave that to the judgment of the House. We are also of the opinion that steps should be taken to recover from the attachés now in the service all the mileage paid them, and we specially call the attention of the House to the case of Mr. Hocking, to whom has been paid the sum of \$117 60 for mileage. He is now acting in the capacity of Bookkeeper to the Sergeant-at-Arms.

Respectfully submitted.

So ordered.

MESSAGE FROM THE GOVERNOR.

EXECUTIVE DEPARTMENT, STATE OF CALIFORNIA,  
SACRAMENTO, February 9, 1897.

*To the honorable Assembly of the State of California*

GENTLEMEN: I return herewith Assembly Bill No. 263 without my approval, and with my objections thereto. The title of the proposed Act is "An Act making an appropriation for the support of the State Printing Office for the forty-eighth fiscal year," while it is intended that it shall serve the purpose of a deficiency appropriation. Under the provisions of the Act of March 23, 1893 (Statutes 1893, page 285), "No officer or employé in the service of the State shall have power to create any deficiency in excess of any appropriation made by law, except in case of actual necessity, and only then upon the written authority first obtained of the Governor, Secretary of State, and Attorney-General, and any indebtedness attempted to be created against the State in violation of the provisions of this Act shall be absolutely null and void, and shall not be allowed by the State Board of Examiners." Section 5 of the General Appropriation Act of 1895 (Statutes 1895, page 289) is more comprehensive, and provides that no such attempted indebtedness shall be paid out of any State appropriations, and that the officer who creates any such indebtedness without procuring the proper written consent shall be liable therefor upon his official bond.

The Superintendent of State Printing has not complied with the provisions of either of the above Acts, has not made to the State Board of Examiners the required showing of "actual necessity," nor has he obtained a certificate "in writing, duly signed by every member of said board, of the unavoidable necessity of such expenditure."

By letter to this office, of date February 3, 1897, Mr. Johnston, the Superintendent, intimates that after January 18, 1897, a deficiency existed in the appropriation for the support of his office, his language being: "I desire to say that up to the 18th of January there was no deficiency in the appropriation for the Printing Office, and therefore there could be no application made to the Board of Examiners, except for a contemplated deficiency, which might or might not occur, although in all probability the amount of work that would devolve upon this office by reason of the Legislature being in session would require the expenditure of more money than would be available." Notwithstanding this statement, long prior to the date of this letter, Mr. Johnston had made a written application to the State Board of Examiners for a written recommendation to the Legislature for the appropriation of \$75,000 asked for in the bill under discussion. When I sent for Mr. Johnston, requesting that he should come before the board and be questioned as to the necessity for the appropriation, on January 11th, he withdrew his application, and has not since appeared before the board, asked for, nor obtained the authority or consent of the board required by the Acts of 1893 and 1895, above cited.

Assembly Bill No. 263, if it received my approval, would not amend or repeal these Acts, nor does it attempt in words so to do, and claims or indebtednesses attempted to be contracted in violation of them would not be payable out of the proposed appropriation, nor would future indebtedness attempted to be incurred be so payable until the requirements of the Acts of 1893 and 1895 had been met. If it is proposed to exempt the Superintendent of State Printing from the provisions of these Acts, to relieve him from his present legal obligation to obtain the written consent of the entire Board of Examiners before he shall incur a deficiency, to relieve him from the personal liability provided for in the Act of 1895, and to attempt to validate the indebtedness incurred in violation of these Acts, then the proposed Act is subject to the fatal constitutional objection that it embraces more than "one subject, which subject shall be expressed in its title." If it is to meet a deficiency in an appropriation, if it is to serve as a relief bill for the Superintendent of State Printing, and if it attempts to validate indebtedness which the law states shall be invalid, it unquestionably relates to more than one subject to which proper expression is not given, and which is not wise legislation. If my contention is true, and the proposed Act is intended to effect a deficiency appropriation, it will fail to accomplish its purpose of paying deficiencies already incurred, or which will be incurred until the provisions of existing laws relating to deficiencies are complied with by the officer at whose instance it was passed. If it is not intended as a deficiency within the meaning of the Acts of 1893 and 1895, or if it is attempted to exempt the Superintendent of State Printing and the indebtedness contracted by him from the provisions of these Acts, this can only be accomplished by their amendment or repeal, which is not effected or attempted. In either case the funds attempted to be appropriated by this bill would not be available for the purpose intended.

This is not a merely technical objection, but goes to the very integrity of our financial safeguards. If the Superintendent of State Printing shall be exempted from the operation of laws which experience has evolved, and which have proven wise and economic, who shall be bound by them? Why discriminate between the different departments of the State Government?

But I object to this bill on other than legal grounds. Two years ago an effort was made to pay off all existing indebtedness, and to place our institutions and affairs upon a cash basis. I thought at that time that the usual appropriation of \$200,000, or less, would be sufficient for the support of the State Printing Office for the next two fiscal years. I was aware of the practice of Superintendents to apply for deficiencies during legislative years, when it was almost impossible to refuse them when they have

exhausted their appropriation, and I sent for the Superintendent of State Printing, and upon his personal assurance that he would operate his office within the proposed appropriation, that he would neither allow nor create a deficiency, and with the understanding that I would not approve one, I made no objection to the allowance of \$250,000 for the support of his office, and gave it my reluctant approval, it being only the second time when such a sum had been allowed for the support of that institution.

Early in the forty-seventh fiscal year I became impressed with the idea that extravagance existed in the management and conduct of the State Printing Office, which it was my duty to endeavor to reduce or prevent. The law explicitly requires the Superintendent of State Printing to purchase only paper by contract, leaving a large number of articles and supplies to be purchased by him as he may see fit. A comparison of the prices he was paying for such articles and supplies, with the prices paid by other departments of the State which purchased under contract, and also with his different prices to different dealers, showed that he was paying in many instances a considerably higher price than was paid by the persons purchasing by contract. February 26, 1895, the State Board of Examiners unanimously authorized me to appoint a printing expert, under Section 679 of the Political Code, the Attorney-General, Secretary of State, and the Governor being present; and in the July following, learning that the force of the Printing Office had been largely increased, I appointed Mr. Fred A. Severy as such expert. The salary of this office was but \$50 per month, its duties then doubtful, and Mr. Severy resigned as expert, and accepted a position under Mr. Johnston. The increase continued until the payroll for the last two weeks of October amounted to about \$9,000, as against less than \$3,000 for the highest payroll of the June preceding. Immediately after the city election of 1895, it decreased rapidly, the number of employes being reduced from 195 on the last payroll in October to 113 on the first payroll in December. After this date the roll increased gradually until just prior to the end of the forty-seventh fiscal year.

In July, 1896, the State Board of Examiners, on the usual affidavit, allowed a payroll covering July 1st to July 18th, and learning later that during a portion of that time the State Printing Office had been closed, and that the employes had performed no service, at the meeting of the board held July 23, 1896, Mr. Markley and the Governor being present, we considered the matter, and following the resolution of February 26, 1895, Mr. C. M. Harrison was elected as a printing expert. Attached to the claim which the Superintendent of State Printing presented for the dates from July 1st to July 18th, was a statement that "the items constituting the claims herein were incurred in the manner and on the dates as above shown, and that the services herein mentioned were actually rendered." This statement was signed and sworn to. At the next meeting of the board, the Superintendent of State Printing, on invitation, appeared before the board and admitted the closing of the State Printing Office for about twelve days during the time between July 1st and 18th, and gave as his reason for the presentation of a claim for services which had not been rendered, that an equal amount of service had been performed by the persons on the roll during the legislative session of 1895, in working overtime for which they had not been paid. The payrolls of 1895 being produced, showed that some of the persons whose names appeared upon this roll had already been paid for overtime in 1895, and that one of them was not on the payroll during the said legislative session. In explanation of this latter circumstance the Superintendent said in effect that "that person would have to work it out in overtime during the coming Legislature." At the same meeting, but at a later hour, Mr. Johnston offered a further explanation, saying that the claim was put in to cover the time of a vacation, which it was his practice to allow his regular employes, although all of the persons whose names appeared upon the objected to roll were employed by the day.

Before the selection of Mr. Harrison as printing expert, the Attorney-General had given his written opinion to the Controller in Severy's case that such appointment was legal. Immediately upon his appointment the question was raised as to his powers and duties, and I communicated with the Attorney-General, saying among other things, the following:

"I am unwilling in the future to pass on the claims of the State Printer until they have been referred to some person for a thorough investigation as to their correctness, or evidence be taken independent of the ordinary affidavit. Our secretary not being a printer, cannot examine these matters properly. It was for this reason that I wrote asking your views as to the expert's duties, but have received no answer thereto. If in your judgment his duties have been abolished, I will accept the situation, but, unless we have the right to appoint an expert, both should urge the next Legislature to provide for one."

On August 19th, at a meeting of the State Board of Examiners, Mr. Harrison appeared before it and requested permission to examine the payroll of the State Printing Office. The permission was denied, and he made no further effort to perform the duties of printing expert.

Since that time the members of the Board of Examiners, other than myself, have approved the claims or payrolls of the Superintendent of State Printing. Not having a technical knowledge of the details of such an institution, and being convinced that unnecessary extravagance existed in the management of certain departments of the office, I have been unwilling to assume the responsibility of sanctioning the same.

The Attorney-General and the Secretary of State have always been willing to join in a personal examination of the State Printing Office, and to this arrangement Mr. Johnston has readily agreed. As no member of the board, nor the secretary, possesses

any special or technical knowledge sufficient to give other than a superficial or imperfect examination of this office, I have deferred action until the meeting of your honorable body, hoping for a change in the laws regulating the State's printing.

I have no personal feeling in this matter, and in my recent message to the Assembly and Senate recommended that changes be made in our system of public printing, to take effect at the expiration of the term of the incumbent. In view of the occurrences since the assembling of the Legislature, I urge that some change take place at once. While the Legislature was considering my message, I deemed it for the best interests of all parties and the State that but sufficient money to pay for State printing during the present session of the Legislature should be appropriated. I am now more strongly of that opinion.

Prior to January 11th last the Superintendent of State Printing filed with the Board of Examiners his application for a recommendation to the Legislature for an appropriation of \$75,000. At the meeting of January 11, 1897, he was sent for, that he might make the showing required by the Acts above mentioned, and be examined as to the necessity for such a deficiency; whereupon he appeared, offered no proof, but withdrew his application—and the next day the bill under consideration was introduced.

My information is that Mr. Johnston claims that the work entailed upon him by the newly created Bureau of Highways, the State Dairy Bureau, the Code Commission, and the litigation of the Railroad Commissioners, was responsible for the exhaustion of his funds, and necessitated the deficiency from which he seeks relief. His recent official report to me, dated September 15, 1896, shows that for the fiscal year ending June 30, 1896, he had expended of the appropriation for the support of his office \$146,000 59, or much more than one half of his total appropriation. In addition, he had used of stock on hand \$12,085 76; making a total expenditure for that year of \$158,086 35. When it is remembered that the legislative printing done that year for the thirty-first session amounted to only \$7,890 75, and that it was not the year upon which the biennial reports of the State officers and institutions were printed, the fact is sufficient to put the most indifferent upon inquiry. The State Printer's explanation that it was printing for the new bodies which caused the deficiency, loses its force when we find that the charges for printing during the forty-seventh fiscal year for the Code Commission, the Bureau of Highways, and the Dairy Bureau aggregated less than \$550. The heavy expenditure for the forty-seventh fiscal year created the deficiency in the forty-eighth.

Section 581 of the Political Code requires the Superintendent of State Printing to make a yearly report to the Governor in writing, "embracing a record of the complete transactions of his office for the preceding fiscal year, which report shall show in detail all the items of expense of the office, including repairs and the purchase of materials of all kinds."

Under Section 6 of Article V of the Constitution, the Governor is authorized "to require information in writing from the officers of the executive department, upon any subject relating to the duties of their respective offices."

When application was made to the Board of Examiners for a recommendation to the Legislature for an appropriation, and later, after such application had been withdrawn, and the bill under discussion had been introduced in the Assembly, I endeavored by every means to secure a statement from the Superintendent of State Printing, or a proper showing of the necessity for the deficiency, or of the reasons why this bill should become a law. His report is incomplete and unsatisfactory. At two meetings of the board succeeding the introduction of Assembly Bill No 263, Mr. Johnston was notified of such meetings, and requested to appear, and he failed to do so. I caused letters to be written to Mr. Johnston soliciting information bearing upon this matter, and not contained in his report, and I failed to secure what was required, the excuse being lack of time.

On February 2, 1897, I personally communicated with him, asking for his reasons for not complying with the requirements of the Act of 1893, and why the pending bill should become a law. I have exhausted my legal and constitutional rights in an endeavor to secure the facts necessary to enable me to act upon this matter with the proper degree of knowledge, and not being met by the explanation, I return the bill to you, with my objections thereto, for further action, and I append the correspondence between Mr. Johnston and this office.

I ask your attention to the reports of the Superintendent of State Printing, where we would expect to find a proper and thorough account of the expenditures of the funds for the support of his office.

For the forty-sixth fiscal year Mr. Johnston expended and charges himself with \$162,370 13 made up of pay of employes, the purchase of material, permanent improvements, and like items; and against this sum he credits himself with printing to a like amount, his accounts for that year balancing. (Pages 5, 10, 11, and 14, Report, 1895)

The report for the forty-seventh fiscal year shows a very different state of facts. This was non-legislative year, and Mr. Johnston expended for employes, materials, improvements, and like purposes \$146,000 59, and credits himself with only \$32,257 82 of printing done for all the departments of the State government. If to this we add the \$4,558 20 charged for lithographing, which may not be included in the charges for printing against the departments, and the \$7,890 75 for legislative printing, which both reports say is chargeable to the preceding year, the total credit amounts to \$94,706 75. This leaves a balance of \$51,293 84 unaccounted for. If we credit Mr. Johnston with repairs, improvements, and permanent material, which would not be according to his system (pages 5, 10 to 14 of his Report, 1895), a balance of \$39,294 96 yet remains to be accounted for.

Even if he claims a credit for sums expended in permanent improvements and materials, which he had not done in previous reports, and the cost of which he had charged up to the printing done, he used during this year over \$12,000 worth of stock, with which he should be charged.

We have, according to his own report, a balance of \$51,293 84 unaccounted for, which, with the \$12,085 76 of stock used, makes a total of \$63,379 60, for which no account is made by the Superintendent's report. I have no doubt that Mr Johnston will be able to satisfactorily explain this matter, but as yet he has not done so.

In this connection I would point out that the department and legislative printing for the forty-seventh fiscal year amounted to \$90,148 65, while against this work was charged \$100,898 15 paid for pay of employes alone, or \$10,749 50 more charged for wages than the entire work done, not counting the materials or supplies used.

Even at these figures, in which the amount charged for printing does not nearly equal the cost of it, I am convinced that such charges are excessive, and that if the work done was charged at the rate at which it could be procured from private concerns, the disproportion would be much greater.

The increased business and larger number of documents required for different offices has caused in some instances an increase in their printing expenses. Having no positive information in other cases, I have taken my own office as an example, and if the charges in other departments are as excessive as they have been in this instance, the charges made for work—not to speak of the cost of the work—is out of all proportion to what the same class of work could be done for by private contract, or individual enterprise. The work I have had done includes the binding of a complete set of the reports of all the officers and institutions of the State from the beginning of its history. This is an invaluable collection, and remains for the permanent use of the Governor's office. The remaining work done for this office has been, in my judgment, necessary. I submitted a statement of the work done for my office, not including the binding of the books above mentioned, for which I was charged \$4,625 85 by the State Printing Office, to an expert printer connected with one of the leading San Francisco printing establishments. The expert was employed by Mr James H. Barry, of the "Star," and he was furnished with the necessary description and samples for making an estimate of the cost of the work. He was furnished no information as to the prices charged by the Superintendent of State Printing, and where no sample of the work was supplied I have allowed Mr Johnston's prices. For the work upon which I asked for estimates, Mr. Johnston had charged me \$4,625 85. The amount at which the San Francisco printer estimated it could be done was \$2,013 30, or considerably less than one-half of the State Office. I will not attempt to locate the reason for such excessive cost. That abuses exist, there can be no question.

On June 10, 1895, the State Board of Education passed a resolution directing the Superintendent of State Printing to print no more copies of a certain Grammar until the further order of the board. The State Board of Education is a separate constitutional body, with full power and authority to adopt such resolution, and the Superintendent was in law bound by it. The reason of the resolution concerned only the board, and the responsibility rested exclusively with it. But notwithstanding this resolution, by which he should have been legally bound, and in violation of it, ten thousand copies of this Grammar were printed after September, 1895. A new Grammar has since been issued, but few of the old Grammars are being called for, and there were on hand, February 1, 1897, seven thousand six hundred and nineteen copies of this book, according to the official report of the Superintendent of State Printing for the month of January, 1897.

During the time from November, 1894, to December, 1896, coal of the character and grade used at the State Printing Office was being purchased under contract, for the use of the Engineer's department at the Capitol building, at prices ranging from \$9 25 to \$9 35 per ton. During this time the Superintendent of State Printing was purchasing coal of no greater value, in the open market, at prices ranging from \$10 to \$11 per ton. In May, 1896, the Board of Examiners insisted that the Superintendent should advertise for coal, in addition to other supplies. Bids were received and opened in his office June 12, 1896, he being present and acting with the board, to award the contract, he being a member of it for that purpose. The contract was awarded the next day, to take effect July 1st. The person from whom the coal had previously been purchased did not get the contract, it being awarded another party for \$9 04 per ton. The day the bids were opened Mr. Johnston ordered seventy-five tons of coal from the party with whom he had been dealing. This coal was delivered, and before it could be consumed the Superintendent had placed in his office an electrical power plant. This power was contracted for in a most unsatisfactory manner. The Electrical Company first communicated with the Board of Examiners, requesting that they be given a contract to furnish power for the State Printing Office. The board transmitted this communication to the Superintendent of State Printing, and requested that he should inform them what saving, if any, would be effected by utilizing electrical power. No answer was made to this communication, and our next information upon the subject was when claims were presented to the board for the purchase of dynamos and electrical appliances, aggregating over \$1,500. Thereafter a monthly claim of \$230 was presented to the board for allowance. This claim was held for investigation, and later an officer of the Electrical Company appeared before the board and stated that he had made a contract with the State Printer to furnish fifty horse-power, or as much thereof as the Superintendent should require, at a monthly charge of \$230. He made such statements before the board as showed that the power was not being used to economic advantage, and read a long

statement showing how it could be more satisfactorily utilized. He declined to file the statement with the board until he had submitted it to the State Printer, with whom he had been dealing. The statement was never filed. The purchase of this electrical apparatus and plant has not reduced, as I understand it, the monthly expenses of that department for power, and has not resulted in a saving to the State. It has reduced the amount of coal purchased under the new arrangement, and has prevented a comparison of costs with the previous arrangement.

As an evidence that the printing charged to the departments in this State has not increased during the past year to any great extent, although the cost of the Printing Office has, I give the following amounts charged to the various departments for the last six years, as follows:

Forty-second fiscal year.....	\$83,499 63
Forty-third fiscal year.....	83,225 40
Forty-fourth fiscal year.....	82,834 55
Forty-fifth fiscal year.....	71,482 40
Forty-sixth fiscal year.....	92,752 25
Forty-seventh fiscal year.....	86,816 00

It is impossible for an inexperienced person to estimate what, if any, extravagance exists in the State Printing Office, and the testimony of inexperienced persons possesses little value. The Superintendent of State Printing, in his report and his letters to me, states that a record is preserved in his office of all work done by him. These books should show the capacity of the presses, the number of impressions possible in a day, the number and capacity of the compositors, and the quantity and character of binding done in any stated time. From this record the exact cost of any particular piece of property could be readily ascertained by an experienced person. As I have not received the information requested from the State Printer, I am constrained to rely upon a statement from Mr. W. M. Taylor, at present of San Francisco, and formerly employed as Foreman of the State Printing Department, whose ability and capability Mr. Johnston has certified to without qualification in his report (Report 1892-94, page 20). Speaking of the fiscal year ending June 30, 1896, Mr. Taylor says:

"It is true that the rates paid in the S. P. O. are rather high, and in some cases 'extravagantly so; but if the difference between these rates and those paid in San Francisco were calculated, the figures would be an insignificant factor in the total of waste. On the labor side of the question of economy in the conduct of this department, the excessive expenditures are caused, not so much by the rate paid to each workman, but almost wholly by the unwarranted number of hands employed to do the limited amount of work. This is illustrated by a late experience in the office, and may be recounted as follows: This is the 'off' fiscal year in printing for the State—no reports, 'no legislative work, etc. Pending the recent canvass of the election of Mayor, etc., in Sacramento, it was thought necessary to give employment to about 100 girls in the bindery. These girls were paid \$10 to \$12 per week. These figures may be verified by the Controller's and Treasurer's books. The office contained seven presses, which do the printing to keep these girls employed (the remaining four presses are for small job work). The capacity of these presses is about 6,500 impressions per day of eight hours; total, 45,000 per day. Messrs. Phillips and Whelan, bookbinders here, state that their girls fold 3,000 in nine hours each; for eight hours, this is about 2,650. From the 100 girls deduct 10 for miscellaneous work, leaving 90 folders, which multiplied by 2,650 makes a total of 238,500 sheets, which they should fold per day, against 45,000 printed per day.

*"Presses.*

"Capacity.....	6,500 sheets per day
"Number presses.....	7
"Total capacity.....	45,000 sheets per day

*Girls.*

Capacity.....	2,650 sheets per day
Number girls.....	90
Total capacity.....	238,500 sheets per day

"Forty-five thousand sheets divided among 90 girls equals 500 sheets per day each, 'Forty-five thousand sheets divided by 2,650 (a fair day's work for one girl) equals 17, 'the actual number of girls required, showing the employment of 5½ times too many. 'Seventeen girls from 90 girls—73, at an average wage of \$11 per week, equals a waste of \$803 per week. As a matter of fact the presses do not average 45,000 per day. I 'make no pretense that these figures are absolutely exact."

According to the report of Hon. L. H. Brown, on the printing of State text-books (page 14), the State printing has increased biennially for general printing since 1887 from \$184,519 15 to \$307,441 05, costing during the years 1887-89, \$228,192 53, and increasing to \$307,441 05 for the years 1893-95.

There is no reason why the printing of this State should cost so much more than it does in other States, nor why the price of ink and material in the State Printing Office should be so much greater than at the Public Printing office at Washington, D. C. In Indiana the public printing is let by contract, and costs about \$50,000 annually. In Illinois the last biennial expenditure for that purpose was, printing, \$52,000; binding, \$28,000; book and cover paper, \$10,000. In Wisconsin and Michigan the public printing is let by contract. In the latter State the cost for 1894-95 was, for printing and binding, \$119,000; stationery, \$50,000 additional, including stock. In Wisconsin the cost was for two years' printing, including stock and printing of Blue Book and census, \$117,241. The three States—Wisconsin, Michigan, and Illinois, with a census population of over

seven and one half millions of people—pay but little more for their biennial printing than does the State of California, with a census population of less than one million and a quarter.

In the table of expenditures issued by the University of New York for the years 1890-91, the cost of the public printing of every State in the Union is given, and it shows that in California the cost for that purpose is many, many times greater than in other States. I append that table.

I believe that a bill should be passed appropriating sufficient money for the printing required by the Legislature; that in the meantime we may consider what, if any, changes should be made in the system of the State Printing Office, or in the regulation of its expenditures. I believe that provision should be made for the employment of an experienced and capable person as a printing expert, with such power and authority as would enable him to examine or investigate all work done, or expenditures made, on account of our public printing, and to report to the Board of Examiners upon all claims for printing presented to them for allowances. I would suggest that for the next two years specific appropriations be made to each department or office of the State requiring printing of an amount equal to one half of the yearly average amount charged against them for work done during the preceding four years, and that they be permitted to procure such printing as they may require at establishments owned by private parties, by contract or otherwise, as you may require, their claims to be subject to the allowance of the Board of Examiners.

I would recommend no interference with the authority of Superintendent of State Printing, other than as above stated; but at the expiration of his term, I believe, as I stated in my recent message, that great economy would result from the letting of our public printing by contract to the lowest bidder. A striking instance of the lax methods pursued in the State Printing Office came to my attention while considering the bill under discussion. In response to a request to the Superintendent of State Printing to furnish me with a statement of the items of charge against my predecessor and myself for printing, I received a statement, of date January 27, 1897. Every article which I have ever ordered from this office is carefully charged. As to the account of my predecessor, I have little data from which to verify it, but few expenses for lithographing are charged against him. We commenced our orders on No. 21 of the orders of his order book, there being eighteen preceding orders for printing, given during the last few months of his administration, of which but one order is charged to his account in the statement made me.

When the meager data at my command shows such extraordinary irregularities, I cannot, when coupling the same with other facts herein set forth, approve a bill that exempts the Printing Office from the explanations required by the laws in applying for a deficiency.

I regret the necessity which requires this attitude of apparent antagonism toward you, and in returning this bill without my approval disclaim any purpose other than to subserve the public welfare.

I cannot sanction the incurring of an indebtedness by an officer of our State government without necessity, and in conflict with the provisions of the Act from which he derives his official support, unless such Act be repealed, amended, or modified.

JAMES H. BUDD, Governor.

"The expense of printing for the departments, boards, and institutions of the State (sixty-one in number), exclusive of the Legislature, aggregated ninety-two thousand seven hundred and fifty-two dollars and twenty-five cents (\$92,752 25), apportioned as shown in the following table. In this connection, permit me to say that the number of institutions, etc., for which work has been done during the past year shows an increase of thirteen as compared with the forty-fifth fiscal year, and an increase of six over the forty-fourth fiscal year, demonstrating the growth of the volume of work turned out by the State Printing Office.

JANUARY 27, 1897.

HON. A. J. JOHNSTON, *State Printer, Sacramento, Calif.*:

DEAR SIR: Please inform me as to the amount of composition that has been set up in your office since January 4, 1897; also, of what the same consists.

You will please state to me the amount of composition in your office during the forty-seventh and the first half of the forty-eighth fiscal year.

Please state to me also the number of presses in your establishment, what each is used for, and the capacity of the same. Also, what work was done on these presses during each month of the forty-seventh and the first half of the forty-eighth fiscal year. Also, what was done on these presses during the month of January, 1897. I desire this information as soon as it can be had, for the purpose of properly considering the appropriation now pending in the Legislature for your office.

On Friday last, I requested of you a communication as to the amount of printing that had been done for this office during my term, and the term of my predecessor. I have not yet received your answer. If you have not enough force at hand to furnish the same, I will be pleased to send some person to do this work, as I desire this information as speedily as possible.

Yours very truly,

JAMES H. BUDD.

FEBRUARY 4, 1897.

HON. JAMES H. BUDD, *Governor State of California, Sacramento, Cal.*

DEAR SIR: In reply to your note of January 27th, I herewith transmit a memorandum of amount of composition and presswork done in the State Printing Office during the month of January, 1897. In reply to your request dated January 28, 1897, I inclose memorandum of brief and transcript work done for the Attorney-General from July 1, 1895, to December 31, 1896.

The other information desired by you I will willingly furnish, so far as may be within my power, at the earliest possible date consistent with the discharge of my other official

duties. No record is kept in my office of the work done on each press, but a record is preserved of all the presswork done on the several presses owned and operated at this State Printing Office. To furnish at once the additional information desired by you would require the suspension of the other duties of my office. During sessions of the Legislature nearly my entire force is engaged upon work required by that branch of the Government, and to divert my force from that work at this time would make it impossible for me to furnish that which is required by the Legislature to enable it to properly discharge its duties. I shall endeavor, however, at the earliest opportunity that it is possible for me to do so, to submit the additional information desired.

I have the honor to remain,

Your obedient servant,

A. J. JOHNSTON,  
Superintendent of State Printing.

HON. A. J. JOHNSTON, *State Printer, Sacramento, California:*

DEAR SIR: Please furnish the Governor with a detailed statement of expenditures for your office the first half of the forty-eighth fiscal year; the amount of type set, and amount of folding and stitching done during said period; also, all improvements made during the forty-seventh and forty-eighth fiscal years, and the cost thereof, together with the amount for printing and electric accounts.

HON. A. J. JOHNSTON, *State Printer, Sacramento, California:*

DEAR SIR: As Governor of the State of California, I will be pleased to hear any representations you may have to make under the provisions of the Act of March 23, 1893, being "An Act to prohibit the creation of debts against the State in excess of appropriations made by law, except in case of actual necessity and on consent of the Board of Examiners."

Further, I have now under consideration Assembly Bill No 263, and would be pleased to hear any reasons you have to give why the same should become a law.

Awaiting your pleasure, I remain, yours truly,

JAMES H. BUDD, Governor.

HON. A. J. JOHNSTON, *State Printer, Sacramento, California:*

DEAR SIR: If possible, please furnish the Governor immediately the amount of type set, the amount of presswork done; also, how much folding and stitching was done by your office during the month of January, 1897.

SACRAMENTO, February 2, 1897.

HON. E. D. McCABE, *Private Secretary:*

DEAR SIR: In reply to your note of even date, requesting immediate information as to work of the State Printing Office during the month of January, 1897, I beg to say I have had a clerical force at work every night endeavoring to give the Governor the information desired, as outlined in his several notes of request. I will forward the same as rapidly as it is compiled.

I am, very respectfully, your obedient servant,

A. J. JOHNSTON.

FEBRUARY 3, 1897.

HON. JAMES H. BUDD, *Governor State of California, Sacramento, Cal.:*

DEAR SIR: In reply to your note of the 2d inst., calling my attention to the Act of March 23, 1893, and asking my reasons why Assembly Bill 263, now awaiting your signature, should be approved by your Excellency, I beg to set forth the following:

I am familiar with the Act intended to prohibit the creation of debts against the State in cases of appropriation made by law, except in cases of actual necessity, and on the consent of the Board of Examiners, found in the Statutes of 1893, page 285.

You, also, are doubtless aware that, for the purpose of taking advantage of that Act, it is necessary for the officer desiring to create a deficiency to present to your board a statement showing the amount of the deficiency, the necessity therefor, and asking permission to borrow the money from any person willing to lend the same. Then, if the Board of Examiners are satisfied with the statements made to them, a certificate is signed by them and the officer is compelled to go out in the open market and borrow the money as best he can, and at the best rates possible. You are doubtless aware that, even when money is plentiful, it is almost impossible to obtain money on these certificates, unless the officer, or his bondsmen, become personally responsible for the payment of the same by the Legislature, as the bank or person loaning money will not take the trouble and risk of securing the passage of the law reimbursing them.

You are doubtless aware that, owing to the stringency in the money market, it has been impossible for people who have had the best security to borrow money in any large amounts. You are also doubtless aware that the application cannot justly be made to the Board of Examiners until the contingency requiring the borrowing of the money elsewhere exists.

Taking these facts into consideration, if you are not already aware of the circumstances, I desire to say that up to about the 18th day of January of this year there was no deficiency in the appropriation for the Printing Office, and therefore there could be no application made to the Board of Examiners, except for a contemplated deficiency, which might or might not occur, although in all probability the amount of work that would devolve upon this office, by reason of the Legislature being in session, would require the expenditure of more money than available. Still, from the very nature of things, the amount of work that would come from the Legislature would be an uncertain quantity, and no one could estimate the amount that would be required for that purpose.

As I view the law, it would be improper, as well as impossible for me, under its terms, to secure a certificate from the Board of Examiners for a deficiency that did not exist, and that might never exist. But suppose that I could ascertain to a certainty the amount of the deficiency that might exist, and should satisfy your board of that fact, and should obtain a certificate from you authorizing me to borrow the money, I would then have to go to some bank and borrow the money and give personal security for the same, probably, and at all events the Legislature would have to pass a deficiency bill to pay back the money so borrowed.

This would be a useless piece of work. The Legislature is now in session, and if they did not see fit to appropriate the money for the purpose of carrying on my office for the balance of the fiscal year, consequently the deficiency that your board might authorize to be created could not be paid. Under any circumstances, therefore, the matter of repayment of any deficiency would have to be left to the Legislature.

I now ask you what reason there could be for getting your consent and borrowing money on the outside, when the Legislature is in session and I can apply to them direct? This seems to be the wisest course to pursue, and the only course I can pursue with justice to myself, my bondsmen, and the State of California.

There is another proposition involved, possibly, and that is, to what extent any indebtedness that might have been created while the matter is waiting your consideration is a claim against the State. On that point I desire to say that I have been informed by some legal gentlemen that I have consulted that the Act of 1893 is simply an Act of the Legislature, that the provisions therein contained are not found in the Constitution, and that they do not bind any subsequent Legislature, and that the appropriation to pay claims created, even against the provisions of that Act under a subsequent Act, would repeal the Act of 1893.

It has been my sole object in the management of the office which I hold to run the institution under my charge as economically as possible, and to put the State to no extra burden. I shall run the office as long as there is money appropriated for that purpose, and when the appropriation ceases or has been expended by necessary work, either a sufficient appropriation must be made or the office must stop. I might say, for your information, if you are not already aware of the fact, that for many years there has been no restraint upon the amount of work that might be ordered upon the State Printing Office, and that, to cure this evil, some years ago, a law was passed that only such reports of the State officers, and so much thereof, should be printed as the Board of Examiners should designate. In 1895 I was given a certain amount of discretionary power in refusing to print any order which may be unnecessary, or which would tend to unnecessarily consume the appropriation for the support of the State Printing Office. On this subject I was supplied with a written opinion from Attorney-General Fitzgerald to the effect that this had no application whatever to the reports of State officers, commissions, etc. So, therefore, I am practically compelled to print everything that is ordered by persons having authority, from my office, and I cannot tell in advance how much that will be.

It is hardly necessary for me to remind you that the appropriation that has passed both branches of the Legislature will not be expended unless it is absolutely necessary, and that all bills that may be contracted by my office, before they are paid, will have to be approved by the State Board of Examiners, of which you are chairman, and there is no doubt that you and your colleagues will see that the money is economically and judiciously expended.

Very respectfully, your obedient servant,

A. J. JOHNSTON,  
Superintendent of State Printing.

DEAR SIR: Please furnish the Governor with an itemized statement of the cost of lithographing furnished by your office for Governor Markham, during his administration, and oblige,

HON. A. J. JOHNSTON, *Superintendent State Printing, Sacramento, Cal.*

DEAR SIR: There will be a meeting of the State Board of Examiners on Friday, August 2, 1895, at 2 P. M.

I was directed by said board to say that, if convenient, they would be pleased to have you attend said meeting.

The following is the answer to the above letter:

DEAR SIR: The inclosed communication from the Sacramento Power and Light Company, proposing to furnish the State Printing Office with motors, etc., was, by the State Board of Examiners, referred to you, with a request for a written statement or opinion from you upon the same, and also the saving, if any, the proposed change would make.

Yours truly,

JOHN MARKLEY,

SPECIAL ORDER.

REPORT OF SPECIAL COMMITTEE OF INVESTIGATION.

ASSEMBLY CHAMBER, SACRAMENTO, ———, 1897.

MR. SPEAKER: The special committee appointed to investigate the temporary organization of the Assembly have performed that duty, and herewith submit their report.

The amended resolution authorizing the investigation is as follows:

WHEREAS, Charges of a serious nature have been made relative to frauds said to have been practiced during the temporary organization of this Assembly; and

WHEREAS, The Chief Clerk of the Assembly, S. J. Duckworth, is charged with complicity therein, and he denies said charges; therefore, be it

Resolved, That a special committee of seven be named by the Speaker of this Assembly to investigate all of said charges relative to the organization of this House, and to report its findings to this House. Said committee shall have full power to subpoena witnesses, administer oaths, take testimony, and such other powers as shall be necessary for the full performance of their duties.

Under this resolution the power of the committee is restricted to reporting its findings. This we understand includes the power to express an opinion, but does not include the power to make recommendations.

The resolution was adopted January 26, 1897, and the committee began its work the same day. Mr. Chynoweth, of the Assembly, has kindly attended all our sessions, and given valuable assistance, in the examination of witnesses. Mr. Duckworth was represented by counsel, and the committee has heard the testimony of all witnesses whose presence was deemed important. The reporters' transcript of the testimony and the exhibits are submitted herewith, and are referred to for information as to details.

The only statute concerning the attachés who must be present at the organization of the Assembly is Section 237 of the Political Code, which is as follows:

"The Secretary of the Senate, the Minute Clerk, and Sergeant-at-Arms of each house for any session must, at the next succeeding session of the body, perform the duties of their offices until their successors are elected and qualified."

It is evidently the intention of this law that only the Chief Clerk of the Assembly, the Minute Clerk, and the Sergeant-at-Arms of the Assembly should hold over from one session to another. They are required to attend, and are, therefore, entitled to mileage. No other attachés have any claim to mileage. It is also clear that the law contemplates that these officers should ordinarily be sufficient to organize the Assembly. It does not, however, expressly prohibit the employment of other attachés, and it has been the custom of the Assembly for many years to employ additional help. The number so employed has increased each session, until the rolls for 1893 show a total of twenty-eight, and those of 1895 show forty-nine. A careful inquiry as to the actual work to be done at the organization of the Assembly convinces us that the following would be an ample force: A Chief Clerk, Chaplain, Minute Clerk, Sergeant-at-Arms, one Assistant Sergeant-at-Arms, Postmistress, Mail Carrier, three Gatekeepers, and five Pages—fifteen in all. Their total per diem should not exceed \$74. We find that at the organization of the present Assembly the Chief Clerk appointed attachés as follows:

Assistant Clerks.....	10
Assistant Minute Clerks.....	6
Assistant Sergeants-at-Arms.....	6
Clerk to Sergeant-at-Arms.....	1
Journal Clerk.....	1
Assistant Journal Clerks.....	4
Engrossing Clerk.....	1
Assistant Engrossing Clerks.....	6
Enrolling Clerk.....	1
Assistant Enrolling Clerks.....	5
Postmistress.....	1
Assistant Postmistress.....	1
History Clerk.....	1
Assistant History Clerks.....	3
Porters.....	17
Bookkeeper to Sergeant-at-Arms.....	1
Bill Clerks.....	6
File Clerks.....	6

Chaplain.....	1
Mail Carrier.....	1
Janitress.....	1
Doorkeepers.....	6
Watchmen.....	6
Pages.....	12
Elevator Attendants.....	2
Messenger to State Printer.....	1
Electrician.....	1
Gatekeepers.....	2
Position not designated (Ella Bateman).....	1
Total.....	112

The total amount allowed for per diem was \$3,961 30, and for mileage, other than to statutory officers, \$303 80. Total, \$4,265 10. As already stated, we find that fifteen attachés—twelve in addition to the three statutory officers—would have been ample, and the aggregate of the per diem that should have been allowed at this session is \$74. This includes the \$24 of per diem to the Chief Clerk, Sergeant-at-Arms, and Minute Clerk. For the necessary additional attachés \$50 was sufficient and all that should have been paid. We find, therefore, that \$4,215 10 has been paid out in excess of the sum actually necessary.

None of the attachés should be paid for more time than they serve. It has been the custom to allow per diem for an entire week, on the plea that the attachés come to the Capital at a sacrifice of time which makes it proper. There is no justice in this claim. The statute only requires three officers to attend, and there is sufficient compensation to them, for the time occupied in coming and going, in the mileage allowed by law, which always exceeds the actual traveling expenses. The other attachés are not required to attend, and if they do so voluntarily they have no right to ask pay for extra time. As a matter of fact they usually come to seek réemployment.

In this connection we must say that the Committee on Mileage, in our opinion, were grossly negligent, not only in recommending mileage, but also in recommending the payment of a full week's pay to all the attachés. It was their duty to diligently inquire into all the facts, as their report was designed to guide the Assembly. Had they made proper inquiry of any experienced member, they would at once have discovered the illegality of the surplus appointments, and would have prevented the evil consequences resulting:

We feel it our duty, also, to say that all the members of the Assembly who voted for the adoption of the report of that committee are censurable for their negligence. Had they given the matter the proper attention, they would have learned that the report was wrong, and that the payments recommended were without any justification whatever, in so far as the excessive appointments were concerned. It is apparent that those who had previously served in the Legislature are more to blame than those who were just entering upon their first experience. The testimony shows that a portion of the attachés were appointed with the knowledge and at the request of the members, as follows:

Frank Barnett, by Mr. Leavitt; J. L. Oliver, by Mr. Wright; H. A. Jackson and I. Erb, by Mr. Kelly; Ben Martin, by Mr. Caminetti; James Devitt, M. Aronson, J. Wintringer, and C. Ewing, by Mr. Henry; J. C. Gross (at request of Mr. Cross), by Mr. Vosburg; James Bowen and S. H. Wilson, by Mr. Breiling; Donald O. Bruce, by Mr. Dibble; W. J. Keating, by H. H. North; John Wise, by Mr. J. W. Power; R. M. Richardson and Mrs. W. Sampson, by Mr. Valentine; W. H. Rice (at request of Mr. Bettman), by Mr. Harris; T. Smith, by Mr. Dolan; W. S. Kingsbury, by Mr. Kenyon; F. C. Smyth, by Mr. Chynoweth; A. H. Smith, by Mr. Belshaw; A. S. Vischer, by Mr. Jones; N. G. Duckworth, by Mr. Treacy; George North, by A. W. North; W. Levinson and E. Sheridan, by Mr. Denney; W. Bullock, W. Hopkins, and W. S. Staley, by Mr. Price; J. Brooks, by Mr. Bettman; Charles Forbes, by Senator Voorheis; Ray Byron, by Mr. Arnerich.

Mr. Jones admitted that in the case of J. P. Devine, A. A. Friedlander, S. Voorsanger, and R. Blakeston, he authorized them to use his name.

We think the members who requested appointments, or lent their names to justify them, are specially deserving of censure. Yet it is to be said in their defense that they had a right to make request for appointments, knowing that some should be made, and that they had a right to presume the Chief Clerk would do his duty and make no more appointments than were actually necessary for the public service. With much more force it may be said in defense of all the members that they were occupied largely in the consideration of the Senatorial contest, and in the examination of the numerous and voluminous printed reports of public officers preparatory to the commencement of their legislative labors. While thus occupied they had a right to trust the Chief Clerk to attend to the details of the organization. He had nothing to do but to organize the House. His mind was free from other cares. He had been a member of the Legislature, and had served as Chief Clerk at the last session. It was fair to presume that he was familiar with the duties of his office, and would honestly perform them.

We are of the opinion, and so find, that the Chief Clerk deliberately and intentionally appointed the aforesaid unnecessary attachés. He offers no excuse for his conduct, except the desire to reward the persons appointed for their political services. He has even declared to representatives of the press that if the law is not changed, he will, at

the next session of the Legislature, pursue the same course, even to the extent of exhausting the Contingent Fund of the Assembly, by appointing, if requisite for that purpose, a thousand attachés.

This is the unfortunate culmination of a bad practice, which has increased session after session, in consequence of the importunities of people who come to look upon politics as a trade—a means of gaining a living. They seem to forget that the members of the Legislature are but the people themselves, assembled in their representative capacity—assembled for the purpose solely of legislating for the common good of the whole State. They disregard the fact that representatives are trustees, and have no right to expend one dollar of the public funds without a fair equivalent in service or material; that every dollar paid out from the public treasury for an unnecessary servant is money deliberately perverted in violation of a sacred trust. They work for their party, it is true, but should, if they are good citizens, do so because they believe that the success of their party is necessary to good government, in which they as well as others are concerned. In other words, they work for themselves when they work for their party.

The Chief Clerk is a man of unusual intelligence, and no one understands better than he how indefensible is his conduct. We are happy to say that the evidence does not disclose any attempt on his part to profit financially by his appointments; but this fact by no means justifies his conduct. By the unnecessary appointments he has made he has enabled others to abstract from the public treasury a large sum of money which it will be difficult, if not impossible, to recover. His example, if unrebuked, would be imitated by others in the future, and this disgraceful abuse, instead of being stopped at once and forever, as it should be, will go on increasing until its evil effects are felt in other departments of the public service. It is not necessary to multiply words in condemnation of his action. While we believe a complete remedy will require legislation, either in amendment to the statute or of the Constitution, or both, we think also that it is necessary that the one who, by showing himself unworthy of the trust reposed in him, has brought about this unfortunate state of affairs, should be made to suffer. As we have already stated, we find no authority in the resolution under which we are acting to authorize us to recommend any specific punishment, and we must leave that to the judgment of the House. We are also of the opinion that steps should be taken to recover from the attachés now in the service all the mileage paid them, and we specially call the attention of the House to the case of Mr. Hocking, to whom has been paid the sum of \$117 60 for mileage. He is now acting in the capacity of bookkeeper to the Sergeant-at-Arms.

Respectfully submitted.

Mr. Mead moved to amend paragraph 4, on page 20 of the Journal of February 5th, containing said report, by inserting, after the word mileage, "except those that were not present or did not join in the report," and also strike out the following:

Shows that a portion of the attachés were appointed with the knowledge and at the request of the members, as follows:

Frank Barnett, by Mr. Leavitt; J. L. Oliver, by Mr. Wright; H. A. Jackson and I. Erb, by Mr. Kelly; Ben Martin, by Mr. Caminetti; James Devitt, M. Aronson, J. Wintinger, and C. #### PREVIOUS QUESTION.

Pending consideration of the subject, the previous question was demanded by Messrs. Cross, Leavitt, and Dibble.

#### PROTESTS.

By Mr. North, of Alameda:

I deny that my action in this matter is deserving of censure. I simply recommended, as a fit person to be placed on the temporary roll, one W. J. Keating, and I was not present when the report of the committee was handed in and adopted, and was not cognizant of the true state of affairs until it was too late to change matters.

By Mr. North, of Yolo:

I was a clerk at the desk during the session of 1895. During the first week of said session my predecessor held over. After my election to this House I received a letter from the Chief Clerk, in which he asked me to name a substitute to act during the reorganization. I did so. In so doing I believe that no guilt attached either to the Clerk, to my appointee, or to myself.

The question now recurring upon the report of the committee as amended.

The ayes and noes were demanded by Messrs. Chynoweth, Waymire, and Cross.

The roll was called, and the report adopted by the following vote:

AYES—Messrs. Anderson, Belshaw, Bettman, Boone, Bridgford, Burnham, Cartwright, Chynoweth, Cross, Damon, Denny, Dibble, Dryden, Elliott, Emmons, Fontana, Goff, Hill, Hudson, Keables, Kelly, Kenyon, Lacy, Lindenberger, Mead, Melick, Mulcrevy, McClellan, McLaurin, North of Alameda, North of Yolo, Power of Placer, Price, Shanahan, Soward, Stansell, Strain, Vosburg, Waymire, Wright, and Mr. Speaker—41.

NOES—Messrs. Aldridge, Allen, Arnerich, Austin, Breiling, Burnett, Canavan, Clarke, Dolan, Ennis, Foreman, Gately, Godfrey, Goodhue, Guy, Harris, Henry, Houghton, Landsborough, Mahoney, Malcolm, McCandlish, McGrath, Pohlman, Power of San Francisco, Robinson, Rubell, Sanford, Sims, Toland, and Treacy—31.

Mr. Mead moved to expunge from the record the following:

The testimony shows that a portion of the attachés were appointed with the knowledge and at the request of the members, as follows:

Frank Barnett, by Mr. Leavitt; J. L. Oliver, by Mr. Wright; H. A. Jackson and I. Erb, by Mr. Kelly; Ben Martin, by Mr. Caminetti; James Devitt, M. Aronson, J. Wintringer, and C. Ewing, by Mr. Henry; J. C. Gross (at request of Mr. Cross), by Mr. Vosburg; James Bowen and S. H. Wilson, by Mr. Breiling; Donald O. Bruce, by Mr. Dibble; W. J. Keating, by H. H. North; John Wise, by Mr. J. W. Power; R. M. Richardson and Mrs. W. Sampson, by Mr. Valentine; W. H. Rice (at request of Mr. Bettman), by Mr. Harris; T. Smith, by Mr. Dolan; W. S. Kingsbury, by Mr. Kenyon; F. C. Smyth, by Mr. Chynoweth; A. H. Smith, by Mr. Belshaw; A. S. Vischer, by Mr. Jones; N. G. Duckworth, by Mr. Treacy; George North, by A. W. North; W. Levinson and E. Sheridan, by Mr. Denny; W. Bullock, W. Hopkins, and W. S. Staley, by Mr. Price; J. Brooks, by Mr. Bettman; Charles Forbes, by Senator Voorheis; Ray Byron, by Mr. Arnerich.

Mr. Jones admitted that in the case of J. P. Devine, A. A. Friedlander, S. Voorsanger, and R. Blakeston, he authorized them to use his name.

We think the members who requested appointments, or lent their names to justify them, are specially deserving of censure.

Mr. Bridgford moved as a substitute:

*Resolved*, That whereas, under the previous question, it was held improper to amend the report of the Committee of Investigation, which appears upon pages 20 and 21 of the Journal of February 5th, so as to exclude from censure those merely requesting appointments; now, therefore, be it

*Resolved*, That we absolve such persons as merely requested the Chief Clerk to make appointments to the temporary roll without knowing how many appointments were to be made.

Lost.

Mr. Bettman moved to expunge from the minutes the words, "It is apparent that those who had previously served in the Legislature are more to blame than those who are just entering upon their first experience."

Lost.

Mr. Keables moved as a substitute for Mr. Bettman's amendment:

I move to further amend by striking from the report the names of any persons who in any way feel that the report reflects upon them, and for those members who are not mentioned by name, but feel they are, by implication, to have their names recorded as not guilty.

Lost.

Mr. Malcolm moved the following amendment to Mr. Mead's motion:

Expunge all of line 2, in the first paragraph of page 21, after the word "them."

Lost.

Mr. Dibble moved that the hour of recess be extended ten minutes.

So ordered.

#### AMENDMENT.

By Mr. Hill:

Amend by striking out of paragraph 1, on page 21, the first two lines which censure members requesting appointments, and inserting the following: "The members of the Assembly are specially deserving of censure."

Mr. Malcolm moved, as a substitute for Mr. Hill's amendment, the following:

Expunge from the minutes all of line 2, in the second paragraph, page 21, after the word "them."

Adopted.

The question now before the Assembly being the substitute of Mr. Malcolm for the original motion of Mr. Mead.

Adopted.

#### PROTEST.

By Mr. Belshaw:

I protest against my name appearing on the list of names of those to whom the Chief Clerk charged his temporary appointees, because my request for the appointment of A. H. Smith as temporary Page was not given before the 5th day of January, and was then only given with the understanding that said Smith was on the temporary roll and required the recommendation in order to draw his pay.

Mr. Dibble moved that the hour of recess be extended fifteen minutes.  
So ordered.

Mr. Dibble moved to reconsider the motion whereby the House was to take a recess at four o'clock P. M., and to convene again at seven o'clock and thirty minutes P. M.

So ordered.

#### RESOLUTIONS.

By Mr. Waymire:

*Resolved*, That all the attachés to whom mileage has been paid, except the Chief Clerk, Sergeant-at-Arms, and Minute Clerk, be and they are hereby required to refund to the Sergeant-at-Arms the sums received by them as mileage, and that the Sergeant-at-Arms be and he is hereby directed to return said sum to the Contingent Fund of the Assembly.

Adopted.

Also:

WHEREAS, The committee heretofore appointed by this Assembly to investigate the irregularities attending the temporary organization of the Assembly have, after a patient consideration of all the facts, found that one hundred attachés in excess of those actually required were appointed to assist in the temporary organization, thereby leading to an unnecessary expenditure of \$4,215 80; and

WHEREAS, The said committee has also found that the said attachés were deliberately and intentionally appointed by the Chief Clerk, with the knowledge that they were not necessary, and for the avowed purpose of rewarding the persons so appointed for party services; and

WHEREAS, The said committee has further found that the Chief Clerk has declared that, unless the law shall be changed, he will, at the next session of the Legislature, appoint enough attachés at the temporary organization to exhaust the Contingent Fund of the Assembly, even if for that purpose it be necessary to appoint a thousand attachés; now, therefore, be it

*Resolved*, That in the opinion of the Assembly, S. J. Duckworth, Chief Clerk of the Assembly, is guilty of a violation of the trust reposed in him; that it is unwise to continue him in office, and that he is hereby removed from office, from and after the passage of this resolution.

Mr. Dibble moved to indefinitely postpone.

PROTEST.

Mr. Keables offered the following, and asked that the same be published in the Journal.

So ordered.

I was compelled yesterday, by order of the House, to vote on the matter of the dismissal of the Chief Clerk of this Assembly. I desire to offer this explanation, which is solely personal: After the censure embodied in the report of the committee of investigation, as applied to members who had participated in the appointment of temporary attachés, I was not prepared to vote for the expulsion of the Chief Clerk, neither was I willing to exonerate him from all blame, as the action of the House forced me to take part in doing. To vote either aye or no on the resolution would not record my judgment on the matter. I asked to be excused from voting at all on the matter, as then presented. This courtesy was denied me by the House, and I was forced to vote no, or else do what I considered, under the then existing circumstances, would be an injustice. That is something that I will not knowingly do to any man.

THOMAS A. KEABLES.

Passed on file temporarily.

Assembly Bill No. 263—An Act making an appropriation for the support of the State Printing Office for the forty-eighth fiscal year.

Mr. Caminetti called up the report of the Committee on Commissions, Retrenchment, and Public Expenditures as a special order preceding the Governor's objections to Assembly Bill No. 263.

#### REPORT OF COMMITTEE ON COMMISSIONS, RETRENCHMENT, AND PUBLIC EXPENDITURES.

MR. SPEAKER: Your Committee on Commissions, Retrenchment, and Public Expenditures, to whom was referred the following resolution, viz.,

*Resolved*, That a special committee of five be appointed for the purpose of ascertaining the actual necessity for the expenditures made in the State Printing Office for the last fiscal year, with power to send for persons and papers, and to administer oaths.

Respectfully submit the following as a partial report of the proceedings held before it:

As authorized so to do, your committee caused to appear before it A. J. Johnston, State Printer, E. S. Hadley, bookkeeper State Printing Office, and Harry Rogers, foreman of the mechanical department, and called for such books and papers as the members of the committee deemed necessary in making investigations.

In addition to the above named persons, your committee caused to be subpoenaed as witnesses E. A. Bridgford and A. Caminetti, members of the Assembly, and James H. Budd, Governor of the State of California. Of the above named persons, his Excellency the Governor alone refused to answer in person.

From the testimony of the above witnesses, and as a result of a partial experting made on Monday, February 8th, of the books and accounts kept in the office of the State Printer, your committee finds an apparent irregularity.

From the evidence at hand, and because of the limited time at its command, your committee cannot give an exact reason for the existence of the apparent irregularity.

Your committee finds further, that in the matter of the publication of State documents the method is of such character as tends to unnecessary expenditure of State moneys, that the so-called "legislative printing account" is loosely conducted, a condition for which the Legislature itself is in some measure responsible, because of the failure to heretofore enact such legislation as would have rendered impossible the existing conditions. To meet these conditions, your committee has in the course of preparation

measures of legislation which, if enacted, will serve to correct the existing methods of questionable expenditures in these departments.

In view of these conditions, and the further fact that the State Printing Fund for the forty-seventh and forty-eighth fiscal years has been exhausted since January 18, 1897, and that an additional appropriation is needed to complete the work in hand, and rapidly accumulating in the office of the State Printer, your committee respectfully recommends:

First—That one or more expert accountants be provided for, to make such expert investigation of the books of the State Printer as may be necessary to definitely locate and account for the apparent irregularities and inconsistencies as shown on the face of the accounts of the State Printing Office for the forty-seventh and forty-eighth fiscal years.

Second—That the Assembly provide for the appropriation of the moneys needed to carry on and complete the work of the State Printing Office for the balance of the forty-eighth fiscal year.

FOREMAN.

SACRAMENTO, CAL., February 11, 1897.

Inasmuch as we, the undersigned, were unavoidably absent at the time of the expediting of the accounts of the office of the State Printer, we do not feel competent to indorse an opinion in regard to the irregularity mentioned in the appended report.

We, however, indorse the recommendations of the committee.

To Honorable B. C. KENYON, Chairman Assembly Committee on Contested Elections:

SIR: I have the honor to submit to your committee itemized statement of expenses and attorneys' fees incurred by me by reason of the contest of Peter Bennett vs. T. O. Toland, for the office of Assemblyman of the Sixty-ninth District, this day dismissed by the Assembly, as follows:

Railroad and sleeper fare from Sacramento to San Buenaventura and return, between December 25, 1896, and January 4, 1897.....	\$35 00
Necessary incidental expenses of the above round trip.....	5 00
Time actually consumed in traveling and in attendance on commissioner in San Buenaventura, December 30 and 31, 1896, 4 days.....	32 00

J. F. Bradley, witness fees, 1 day.....	2 00
A. S. Kenagy, witness fees, 1 day.....	2 00
L. I. Kamp, witness fees, 1 day.....	2 00
Wesley Boling and J. J. De Witt—fees for testimony of A. S. Kenagy, J. F. Bradley, and L. I. Kamp, called as witnesses for contestee—14 folios at 30c.....	4 20
Attorney's fees of F. W. Ewing and W. E. Shepherd for preparation of contestee's defense and attending two days before Commissioners Boling and De Witt at San Buenaventura, December 30 and 31, 1896, and of Thos. F. Barry, for preparing for argument before your committee, and attendance thereon in said contest at its sittings on January 26, 27, 28, and 29, 1897, according to Standing Rule LXXVI of the Assembly.....	200 00

In relation to the items in the above statement, resulting from the trip from Sacramento to San Buenaventura and return, I would say that I was in Sacramento at the time the notice of contest was served on me, and did not intend to return to San Buenaventura until after the session of the Legislature; that the instituting of the contest made the trip to San Buenaventura necessary, and the expenses and charges incident to it were necessary by the contest.

Respectfully submitted.

#### SPECIAL URGENCY FILE.

Assembly Bill No. 332—An Act to amend Section 1880 of the Code of Civil Procedure, relating to witnesses.

Read third time.

Mr. Dibble moved to appoint a select committee of one to amend Assembly Bill No. 332 as follows:

Strike out the following:

NOTE.—The scope of the amendment is to prevent any person interested in an estate from testifying as to facts occurring before decedent's death, not only in an action upon a claim (as the section was construed in *Myers vs. Reinstein*, 67 Cal. 89), and also in an action against an estate relating to the title to property in decedent's possession at the time of his death. The same policy which closes the mouth of a surviving party to a transaction where a suit is upon a claim against an estate would prevent his testifying as to facts constituting an alleged trust in property, because the elements of danger of fraud are equal in both cases.

So ordered.

The Speaker appointed Mr. Dibble as such select committee.

#### REPORT OF SELECT COMMITTEE OF ONE.

ASSEMBLY CHAMBER, SACRAMENTO, February 12, 1897.

DIBBLE, Committee.

The question being on the final passage of the bill.

The roll was called, and the bill passed by the following vote:

AYES—Messrs. REPORT OF SELECT COMMITTEE.

ASSEMBLY CHAMBER, SACRAMENTO, February 15, 1897.

MR. SPEAKER: Your select committee, appointed to investigate into the matter of the purchase of furniture, ostensibly for the use of the various committees and members of this, the thirty-second, session of the Legislature, and to whom was referred the following resolution, introduced by Mr. Emmons:

*Resolved*, That this House instruct the Controller to withhold all warrants for furniture purchased during this, thirty-second, session of the Legislature, ostensibly for the

use of the various committees of the said Legislature, until the said purchase can be investigated by a committee appointed for that purpose.

Beg to report: That all of the members constituting said committee made a personal examination of the State Capitol storeroom, and found therein a large accumulation of broken and damaged furniture, consisting of chairs, desks, and lounges, among which your committee were shown the various chairs and desks which necessitated the purchase of new furniture to replace the same.

The new furniture was next examined in the various rooms in which it is now used, and found to consist of the following, to wit:

Twenty-eight ordinary chairs, purchased at an aggregate cost of	\$56 00
Twelve office chairs, purchased at an aggregate cost of	105 00
One type-writing chair, purchased for the sum of	4 00
One reed rocking chair, purchased for the sum of	7 50
Twenty-four desks, purchased at an aggregate cost of	466 50
One large table, purchased for the sum of	15 00
Sixty-five yards carpet matting, purchased for the sum of	65 00
Sundry repairs to furniture, upholstering, and labor	81 25

Total cost of furniture, and repairs, etc. \$800 25

Requisitions for the various desks and chairs, etc., enumerated above, as received from the different committees and members ordering the same, with the exception of twelve ordinary chairs and the repairs and labor performed, are on file in the Sergeant-at-Arms' office, and the same have been examined by the committee and found correct.

In the judgment of your committee, the prices paid for all of the furniture purchased, and for the work performed, is reasonable, considering the quality of the furniture purchased and the work done.

The committee, therefore, recommends that the bill of the Sergeant-at-Arms, to the full amount of the same, to wit, \$800 25, be paid.

With the recent fire which almost totally destroyed the State Capitol of the State of Pennsylvania fresh in their memories, it is forcibly impressed upon the committee, as part of their duties in connection with this investigation, to call attention to the condition of the State Capitol storeroom, which is most dangerous, and which hourly menaces this Capitol building.

Broken furniture, books and pamphlets, the accumulation of years, are piled up to the rafters, or scattered about the floors in an incongruous mass; a spark would be sufficient to set this mass of dry rot aflame, and a fire once started there would end, no one can predict where. The committee are unanimous in recommending that immediate attention be given to this dangerous condition of affairs, and that the State Capitol storeroom be cleared of its inflammatory contents without delay.

It is the sense of the committee that, upon the close of the present session of the Legislature, all furniture now used in the various rooms be turned over to the Secretary of State, and that he be instructed to properly care for the same until the next session of the Legislature.

HARRIS,  
MALCOLM,  
RYAN,  
Committee.

THE COUNCIL OF ASSOCIATED INDUSTRIES OF CALIFORNIA, }

To J. J. CRAWFORD, Esq., *State Mineralogist*:

DEAR SIR: At the last meeting of the Council of Associated Industries of California, the following resolutions were adopted and copies ordered sent to the Secretary of the Senate and the Speaker of the Assembly:

*Resolved*, That we look upon the State Mining Bureau as one of the important factors in the advancement of the mining industry of California, and urge upon our Legislature the necessity of providing for its continued proper maintenance and support. The reports and bulletins are not only directly useful to the miners of the State, but also serve a good purpose in attracting the attention of people of other States and countries to the advantages to be gained in following the business of mining in California; and also

*Resolved*, That it is urged upon the Legislature to furnish a suitable appropriation to continue the State Mining Bureau upon its present separate basis, and, instead of merging it into a consolidation of State bureaus with entirely different objects, as has been proposed, to keep it intact in its present condition, as it is the only bureau devoted to the mining industry of California—an industry contributing \$25,000,000 annually in all its branches.

Yours very truly,

COUNCIL OF ASSOCIATED INDUSTRIES OF CALIFORNIA.  
By C. L. BLETHEN, Acting Secretary.
